The Intercultural Exeter Couples Model Janet Reibstein, Reenee Singh, 2020-12-02 Increase the efficacy of your treatment interventions in intercultural couples therapy The Intercultural Exeter Couples Model Making Connections for a Divided World Through Systemic Behavioral Therapy provides practitioners with a thorough guide to effectively treating intercultural couples The book consists of a systematic effort to translate systemic ideas that take into account a cultural perspective into a highly useable and practical form The Intercultural Exeter Couples Model also attempts to marry two often distinct forms of practice the systemic and the behavioral Both approaches have much to contribute to effective couples counselling but they are often theoretically siloed This book demonstrates the value of using both approaches simultaneously This book provides concrete and practical strategies for implementing systemic and behavioral approaches to intercultural couples therapy in a manner consistent with clinical best practice Rather than ignoring the significant and complex impacts that differing cultures can have on a relationship The Intercultural Exeter Couple Model puts those differences front and center encouraging the therapist to engage with the cultural mismatch that can be at the core of many couples ongoing friction The book's chapters tackle both the model itself and a variety of interventions covering topics including Teaching couples how to break patterns and prepare them to establish new ones Training couples to communicate effectively Establishing new modes of behavior in couples An explanation of empathic bridging maneuvers A description of the use of life space explorations Perfect for clinicians students and professors interested in or practicing in the field of couples therapy The Intercultural Exeter Couples Model provides readers with an in depth exploration of an increasingly important model of couples therapy and describes in painstaking detail the interventions necessary to achieve positive patient outcomes **Understanding Adult Attachment**

**Support for Home Education** Great Britain: Parliament: House of Commons: Education Committee,2012-12-18 This report supports the right of parents to educate their children at home and accept that home educating families should bear the costs of that provision It is not reasonable however that it should be so difficult to access an exam centre nor that families should pay exam costs on top of everything else Home educators and local authorities LAs have since the Badman Review and its aftermath in 2009 made real efforts to engage and to ensure more constructive relationships and better support but there is clearly some way to go In particular the

Committee notes the postcode lottery element of current provision for home educators with different LAs offering starkly different services and patterns of support. It calls on the Department for Education to conduct an audit review the home education guidance given to LAs and to support pilots for local offers of support being published. The Committee is also concerned that provisions for home educated young people with SEN are not being fully met. *Spectrum Grade 5*
