Definition:

"The primary purpose of an informal essay is to entertain. It is probably the first encounter you have with writing essays (maybe called 'compositions' in the early years of school). Do you recall being asked to write about what you did on your recent holiday?"

However, the professional essayists, whilst often having other purposes in mind as well as entertainment, such as informing or persuading, will nevertheless conform to the basic premise that the reader has to be interested in order to continue reading. This is true of essays by scholars and academics, like T.S. Eliot and Oscar Wilde, and newspaper columnists, like Clive James and Keith Waterhouse. The newspaper columns are really short essays, usually humorous.

The informal essay can be much less restricted by structural conformities and much more personal in both approach and expression. Allow your personal opinions and mode of expression to show through in an informal essay, rather than trying to sound 'academic'. Your own 'voice' should be clearly audible in the informal essay and you should not be afraid to use humour where appropriate. Despite this, the informal essay should still maintain direction and clarity.

You will find examples of the work of famous essayists in collections and anthologies but it is, perhaps, more useful to look back over your own compositions; you will see clearly that the style is quite different from formal academic essays.

It is also worth glancing through features pages in newspapers as they display the style with great ease. Without exception, journalists with a 'by line' will adopt their personal style, whatever they are writing about, because they want their work to be recognisable and memorable. The structure will usually adapt the style of a formal essay so that the reader's attention is grabbed by short, punchy, entertaining paragraphs. This is especially true of the opening, as it will follow on from a punning, alliterative and/or amusing headline which will persuade the reader who is skimming through the paper that it is worth pausing to read their piece over others.

The key points to remember when writing informal essays are to write personally and coherently whilst maintaining the aim to entertain, persuade and inform your reader.

To Know Her Own History Kelly Ritter, 2012-02-20 To Know Her Own History chronicles the evolution of writing programs at a landmark Southern women's college during the postwar period Kelly Ritter finds that despite its conservative Southern culture and vocational roots the Woman's College of the University of North Carolina was a unique setting where advanced writing programs and creativity flourished long before these trends emerged nationally Ritter profiles the history of the Woman's College first as a normal school where women trained as teachers with an emphasis on composition and analytical writing then as a liberal arts college She compares the burgeoning writing program here to those of the Seven Sisters Wellesley Smith Radcliffe Barnard Vassar Bryn Mawr and Mount Holyoke and to elite all male universities to show the singular progressivism of the Woman's College Ritter presents lively student writing samples from the early postwar period to reveal a blurring of the boundaries between creative and expository styles By midcentury a quantum shift toward creative writing changed administrators' valuation of composition courses and staff at the Woman's College An intensive process of curricular revisions modeled after Harvard's Redbook plan was proposed and rejected in 1951 as the college stood by its unique curricula and singular values Ritter follows the plight of individual instructors of creative writing and composition showing how their compensation and standing were made disproportionate by the shifting position of expository writing in relation to creative writing Despite this unsettled period the Woman's College continued to gain in stature and by 1964 it became a prize acquisition of the University of North Carolina system Ritter's study demonstrates the value of local histories to uncover undocumented advancements in writing education offering insights into the political cultural and social conditions that influenced learning and methodologies at marginalized schools such as the Woman's College

Expository Writing Mervin James Curl, 2013 Expository Writing It would not be rash to say that more expository thinking is done than any other kind of mental activity The child who dismantles a clock to find its secret is doing expository thinking the official of however complicated a business who ponders ways and means is trying to satisfy his

business curiosity the artist who studies the effect of balance of light and shade of exclusion or inclusion is thinking in exposition politicians are ceaselessly active in explaining to themselves how they may and to their constituents how they did We cannot escape Exposition The question then arises since this form of writing is always with us how can we make it effective and enjoyable All writing should be interesting all really effective writing does interest It may not be required that every reader be interested in every bit of writing that would be too much to hope for in a world where sympathies are unfortunately so restricted To peruse a directory of Bangkok if one has no possible acquaintance in that city might become tedious though one might draw pleasure from the queer names and the suggestions of romance But if one has a lost friend somewhere in New York and hopes that the directory will achieve discovery the bulky and endless volume immediately takes on the greatest interest Lincoln driven at length to write a recommendation for a book to escape the importunities of an agent wisely whimsically wrote This is just the right kind of book for any one who desires just this kind of book Wide though his sympathies were he recognized that not every one enjoys Pg 3 everything The problem of the writer of exposition is to make as wide an appeal as he can Interest in reading is of two kinds satisfaction and stimulation And each of these may be either intellectual or emotional or both The interest of satisfaction largely arises when the questions which the reader brings with him to his reading are answered A reader who desires to know what is done with the by products in a creamery where the skim milk goes to will be satisfied and interested when he learns the complete list of uses among them the fact that skim milk is largely made into the white buttons that make our underclothing habitable The reader who leaves an article about these by products with the feeling that he has been only half told is sure to be dissatisfied and therefore uninterested In the same way when a reader picks up an article or a book with the desire to be thrilled with romance or wonder to be taken for the time away from the business of the world to be wrenched with pity for suffering or with admiration for achievement in other words when a reader brings a hungry emotion to his reading if he finds satisfaction he is interested
