2. How did English become an international language?

**In the twentieth century, the US spread English to the world through newspapers, television and film.**

3. When do you think Chinese will become an international language?

4. Who owns English?

**Everyone who speaks it.**

### 课堂操练

Who owns English?

1. English is spoken by about 400 million people, mostly in the US, the UK, Canada, Australia, New Zealand and South Africa. In Ghana, India and Singapore, English is used as a working language, for example, between bosses and secretaries, and between doctors and patients, although there are other languages for everyday use. In China and many other countries, English is the most important foreign language that children learn at school, because when they grow up, it will be quite possible for them to meet people from other countries.

### 课堂操练

They will need a common language to communicate with each other. English is now used by nearly a **quarter** ① of the world's **population** ②, and anywhere you go in the world, there is a good chance that you will meet someone who speaks English.

2. The reason why English is spoken everywhere is that in the nineteenth century, English became the language of world trade. And in the twentieth century, the US spread English to the world through newspapers, television and film. It is now the common language for international travel, science, industry, and recently, information technology and the Internet.

### 课堂操练

3. It is also important to know that English has borrowed many words from other languages, for example, "restaurant" from French, "zero" from Arabic, "piano" from Italian, and "tofu" from Chinese.

4. Will the importance of English last? As China continues to grow, many people think that Chinese will become as common as English by the middle of the twenty-first century. More and more schools in Europe are teaching Chinese as a foreign language, **together with** ③ some European languages. However, most people still think that English will be used most around the world, at least for the next twenty or thirty years.

### 课堂操练

5. So who owns English? The answer is everyone who speaks it — the British, the Indians and the Chinese all help make it a rich language. Even though we speak different types of English, we are all part of an international club. We all own English.

**Brodsky in English** Zakhar Ishov, 2023-08-15 A deeply researched account of Joseph Brodsky s evolution in English as a self translator and a poet in translation Joseph Brodsky s translations of his own Russian language poems into English new originals have been criticized for their un Englishness an appraisal based on a narrow understanding of translation itself With this radical reassessment of the Nobel Prize winner s self translations Zakhar Ishov proposes a fresh approach to poetry translation and challenges the assumption that poetic form is untranslatable Brodsky in English draws on previously unexamined archival materials including drafts and correspondence with translators and publishers to trace the arc of Brodsky s experience with the English language Ishov shows how Brodsky s belief in the intellectual continuity between his former life in the Soviet Union and his new career in the United States including as Poet Laureate anchored his insistence on maintaining the formal architecture of his poems in translation locating the transmission of poetic meaning in the rhythms of language itself This book highlights Brodsky s place within the long history of the compromises translation must make between linguistic material and poetic process
