When Is Intake For 2016 South African Defence Force:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 *Contemporary Issues in South African Military Psychology* is a well-timed, extremely thought-provoking, imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields, specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. Prof Karel Stanz, University of Pretoria.

SADC Gender Protocol 2018 Barometer Morna, Colleen Lowe, Glenwright, Danny, 2018-08-20 The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable Development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063. In 2016, in July 2017, the Ministers adopted a Monitoring, Evaluation and Results Framework (MERF) that is now the basis of reporting. 2018 marks the tenth anniversary of the SADC Gender Protocol and the Barometer. Moving with the times, the Alliance has expanded the two yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data insights and analysis awaits all readers of the Barometer that will

also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030 *SADC Gender Protocol 2017 Barometer* Morna, Colleen Lowe,Makamure, Lucia,2017-10-04 The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol its updating implementation and tracking Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016 In July 2017 the Ministers adopted a Monitoring Evaluation and Reporting Framework MERF that will be the basis of future reporting Now in its ninth edition the 2017 Barometer is the first assessment of the Post 2015 SADC Gender Protocol Moving with the times the Alliance has expanded the two key main yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030 *Annual Report* South Africa. Fighting and Writing Luise White, 2021-02-08 In Fighting and Writing Luise White brings the force of her historical insight to bear on the many war memoirs published by white soldiers who fought for

Rhodesia during the 1964-1979 Zimbabwean liberation struggle. In the memoirs of white soldiers fighting to defend white minority rule in Africa long after other countries were independent. White finds a robust and contentious conversation about race difference and the war itself. These are writings by men who were ambivalent conscripts generally aware of the futility of their fight, not brutal pawns flawlessly executing the orders and parroting the rhetoric of a racist regime. Moreover, most of these men insisted that the most important aspects of fighting a guerrilla war, tracking and hunting knowledge of the land and of the ways of African society, were learned from black playmates in idealized rural childhoods. In these memoirs, African guerrillas never lost their association with the wild, even as white soldiers boasted of bringing Africans into the intimate spaces of regiment and regime.

Elephants Under Human Care Paul A. Rees, 2020-09-27. This book draws together for the first time the published research on the behaviour, ecology and welfare of elephants living in zoos, circuses, logging camps and other captive environments in a single comprehensive volume. It takes a multi-disciplinary approach, considering the work of zoo biologists, animal behaviour and welfare scientists, veterinarians, philosophers, zoo educators, tourism specialists, conservation biologists, lawyers and others with a professional interest in elephants. *Elephants under Human Care: The Behaviour, Ecology and Welfare of Elephants in Captivity* is a valuable resource for zoo biology and animal welfare researchers. It is also useful for students and zoo professionals and managers looking for a comprehensive guide to current research on captive elephants. Although not intended as a husbandry manual, the book discusses some of the elephant welfare standards developed by the Association of Zoos and Aquariums (AZA) and the British and Irish Association of Zoos and Aquariums (BIAZA) and their relationship to current knowledge of captive elephants. Includes results of captive studies compared with field studies of wild elephants. Features original images of elephant behaviour as they live and behave under human care. Includes results of the author's original research, including many original photographs. Considers future implications of research for the welfare and conservation of elephants both for elephants in captivity and those living in the wild.

Medicine and Modern Warfare, 2016-08-29. After years at the margins of medical history, the relationship between war and medicine is at last beginning to move centre stage. The essays in this volume focus on one important aspect of that relationship: the practice and development of medicine within the armed forces from the late nineteenth century through to the end of the Second World War. During this crucial period, medicine came to occupy an important position in military life, especially during the two world wars when manpower was at a premium. Good medical provisions were vital to the conservation of manpower, protecting servicemen from disease and returning the sick and wounded to duty in the shortest possible time. A detailed knowledge of the serviceman's mind and body enabled the authorities to calculate and standardise rations, training and disciplinary procedures. Spanning the laboratory and the

battlefield and covering a range of national contexts the essays in this volume provide valuable insights into different national styles and priorities They also examine the relationship between medical personnel and the armed forces as a whole by looking at such matters as the prevention of disease the treatment of psychiatric casualties and the development of medical science The volume as a whole demonstrates that medicine became an increasingly important part of military life in the era of modern warfare and suggests new avenues and approaches for future study

Orthopaedic Trauma in the Austere Environment Juan de Dios Robinson, 2016-05-19 Orthopaedic trauma represents 75% of the casualties in a disaster Many of these patients will be cared for by international volunteers but good intentions are not always matched by good preparation This book explains how best to prepare for missions how to deal with injuries in austere conditions how to ensure a positive legacy and the need for cultural political and legal awareness All of the most common orthopaedic presentations encountered in the austere environment are covered In addition to evidence based research cases and actual experiences from the authors missions are included to illustrate and bring to life key points This book written by a team of international experts with extensive experience of challenging field missions will be an ideal practical guide for volunteers and health care workers helping them to deal with confusing chaotic and distressing situations with greater confidence and efficacy
