Dating the Passion C. Philipp E. Nothaft,2011-10-06 The beginnings of scientific chronology are usually associated with the work of the great Renaissance philologist Joseph Scaliger 1540 1609 but this perspective is challenged by the existence of a vivid pre modern computistical tradition in which technical chronological

questions especially regarding the life of Jesus played an essential role Christian scholars such as Roger Bacon made innovative breakthroughs in the field of historical dating by applying astronomical calculations critical exegesis and the study of the Jewish calendar to chronological problems Drawing on a wide selection of sources that range from late antiquity to 1600 this book uses the history of the date of Christ s Passion to shed new light on the medieval contribution to science and scholarship

Makano,2012-06-22 There are all kinds of people out there the affluent the tall the elegant the beauty queens etc yet many times the outer appearance or material possession does not make a significant impact at all on the image we project to the world While physical appearance or material possession may sometimes be helpful as many people judge the book by the cover until they read the content the secret of lasting personal magnetism is totally a different animal Sadly money does not buy love is a lesson many learn the hard way Then what makes it possible for some people to easily conquer the hearts of their fellow men without necessarily physical or financial advantage Why do the rich and the

A Passion For Trees Maggie Campbell-Culver,2014-03-27 Given the extent of his influence on 17th century life and his lasting impact on the British landscape it is remarkable that no book has been written before about John Evelyn He was a longstanding friend of Samuel Pepys who wrote of him A most excellent person he is and must be allowed a little for conceitedness but he may well be so being a man so much above others a founder member of the Royal Society and a prolific writer and diarist He was an early advocate of the garden city but his most important work was *Sylva* a Discourse of Forest Trees *Sylva* was presented to the Royal Society to promote the planting of timber trees for the supply of the Navy the employment and advantage of the poor as well as the ornamenting of the nation He was responsible for the first great raft of tree planting and for a great influx of tree introductions to Britain Maggie Campbell Culver s book like *Sylva* has at its core a section detailing the characteristics history and uses of 33 trees incorporating the advice Evelyn gave and demonstrating its relevance still in the 20th century Not only was Evelyn probably the first horticultural writer to show an appreciation of the aesthetic benefits of trees in our landscape he is shown to be a founder father of the modern conservation movement *The Nation* ,1871 *Pepysian Meditations on the Passion of Christ* Mayumi Taguchi,Yoko Iyeiri,2019-05-07 The Middle English prose *Pepysian Meditations on the Passion of Christ* PMPC survives uniquely in Cambridge Magdalene College MS Pepys 2125 and has not previously been published It is one of several Middle English translations of the Passion sequence of the pseudo Bonaventuran Latin *Meditationes Vitae Christi* MVC This part of the MVC circulated independently and in this form is known in modern scholarship as the *Meditationes de Passione Christi* MPC The editors argue that although the Middle English version in Pepys 2125 followed the model of the MPC it is probable that the translation derives directly from a recension of the MPC Although the translator handles the original with a degree of freedom the text is not indebted to other sources The Introduction includes an extensive description of the manuscript which is a late medieval devotional miscellany and a detailed account of the language of the PMPC It also addresses the textual tradition out of which the PMPC grew and the work of the translator The edited text is followed by a commentary glossary and bibliography **English Mechanic and Mirror of Science and Art** ,1889 **Sport and Postcolonialism** John Bale,Mike Cronin,2020-05-27 Compared with modes of representation such as literature drama poetry and dance the world of sport has been largely neglected in

postcolonial studies At both local and global levels however sport has been profoundly affected by the colonial legacy How are individual nations and different sporting cultures coping with this legacy What does the end of colonialism mean within particular states and sports How is postcolonialism linked with struggles of race and identity Sport was a major tool of colonial power and postcolonialism manifests itself in the modern sporting world in several ways including the huge number of world class athletes from former European empires and the exploitation of child workers in postcolonial nations by the sporting goods industries Many former colonial states place considerable importance on elite sport as a form of representation yet a small number of such states oppose sport in its western form This book explores the wealth of issues and experiences that comprise the postcolonial sporting world and questions whether sport can act as a form of resistance in postcolonial states and if so how such resistance might manifest itself in the rule bound culture of sport Its novel approach and topical focus makes this book essential reading for anyone interested in contemporary sports postcolonialism race and ethnic studies

Rembrandt's Passion Series Simon McNamara, 2015-05-13 Rembrandt's Passion Series is the name given to five paintings of similar size and format executed over a six year time frame 1633-39 The works were commissioned by Frederick Hendrick Prince of Orange and Stadtholder of the United Provinces for his gallery at The Hague Although each of the paintings depicts a traditional scene from the Passion of Christ they do not form anything like a complete Passion Cycle Seven years later Hendrick ordered a further two works of the same size and format of subjects from the Nativity of Christ Six of the seven paintings now hang in the Alte Pinakothek Munich As the works were executed between Rembrandt's well documented early Leiden period and his rapid rise to prominence as a portraitist in Amsterdam the works have not attracted the scholarly attention they might although the commission was undoubtedly the most prestigious of the young Rembrandt's career Rembrandt's Passion Series is the first monograph to focus solely on this important group of paintings by the most famous artist of the Dutch Golden Age In it Simon McNamara traces the history of the commission by way of extant documentation places the works in a seventeenth century Dutch religious milieu and shows how the series is both reflective of contemporary theological exegesis and embedded in theoretical artistic debates of the age The book also highlights the extraordinary nature of the self images seen in three of the paintings and discusses the legacy of the series in later graphic works by Rembrandt and in paintings by his pupils In doing so Rembrandt's Passion Series presents a series of unifying factors both stylistically and thematically for the works that allows the Passion Series to be properly and finally called a series
