,1959 *Play-Based Interventions for Autism Spectrum Disorder and Other Developmental Disabilities* Robert Jason Grant,2016-06-23 *Play Based Interventions for Autism Spectrum Disorder and Other Developmental Disabilities* contains a wide selection of play therapy interventions for use with children and adolescents with autism spectrum disorders, dysregulation issues or other neurodevelopmental disorders. The structured interventions focus on improvement in social skills, emotional regulation, connection and relationship development and anxiety reduction. Special considerations for implementing structured interventions and an intervention tracking sheet are also presented. This valuable tool is a must have for both professionals and parents working on skill development with these populations. **Finding Your Own Way to Grieve** Karla Helbert,2012-10-01 Children and teenagers with autism can struggle to cope with the loss of a loved one and the complicated and painful emotions of bereavement. This book explains death in concrete terms, explores feelings that the child may encounter as a part of bereavement and offers creative and expressive activities that facilitate healing.

Understanding the Global TV Format Albert Moran,Justin Malbon,2006-01-01 Recent years have seen an astonishing growth in the adaptation of program formats in television systems across the world. Under the new market conditions of the multi channel cluster brought about by new technologies and increased privatization of service, the adaptation of successful and popular TV formats from one place to another is occurring on an increasingly regular basis. Hence the remaking of different national versions of *Big Brother* and *Pop Idol* are only part of what is going on. In fact, from Chinese versions of *Coronation Street* and *Sex and the City* to Indian and Indonesian remakes of *Who Wants To Be A Millionaire*, program clones of *Ground Force* and other make over and renovation shows across Europe and the UK, the present is the era of the global TV format. But what exactly is a format? After all, programs have been copied and imitated since the beginnings of broadcasting. In this, the first book in the English language to systematically deal with the subject, Albert Moran and Justin Malbon provide a valuable guide to the institutional, cultural and legal dimensions of the format. Now widely referred to, although equally often misunderstood, the TV format is a commodity of production, finance, distribution, broadcasting and marketing knowledge that is facilitating the international reconfiguration of program making. *Understanding the Global TV Format* thus addresses the different stages and issues of the business. It tracks the steps whereby formats are devised, developed and distributed. Major companies are profiled, as are the international markets and festivals at which trade occurs. However, there is also a great deal of piracy taking place, so that the book is concerned with the control and regulation of format remaking. Legal protection

is often both the first and last recourse of parties and the authors examine the relevance of laws relating to such matters as copyright and contract
