When Will Sandf Call For 2015:

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general. *SADC Gender Protocol 2015 Barometer* Morna, Colleen Lowe, Dube, Sifiso, 2016-02-22 In August 2008 Heads of State of the Southern African Development Community adopted the ground breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol targets expire in 2015. Now that 2015 is here we need to step back, assess and reposition. In June 2014 SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen, resolve, reconsider, reposition and re-strategise for 2030. *SADC GENDER PROTOCOL BAROMETER 2015* 2015 is here. Heineken,2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country s new security political and social environment since 1994 In South Africa s changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy This book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged HIV AIDS and the consequences this holds for the military in terms of its operational effectiveness In closing the author highlights key events that have caused the SANDF to become lost in transition and transformation spelling out some lessons learned The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world

policy makers *Creating a South African Sub-Regional Conflict Transformation Model* Noluthando Phungula, 2024-01-11

This book contributes to the current academic debate and scholarly research on conflict transformation in the Southern African Development Community SADC sub region. It will serve as a guide on how conflict recurrences can best be tackled in the sub region and seeks to improve the transformation process of conflict and peace building in the Kingdom in the Sky and in the sub region at large. The book will shed light on the road ahead for the SADC and its role in transforming conflict into positive peace and peace building and will contribute to discussions on the necessity of a conflict transformation model as a key tool in efforts to transform the state of recurring intrastate conflict in Lesotho. Thus this book will also enhance the literature and discourse on sub regional organisations and their path towards conflict transformation on the African continent.

Reflections on the Complexities of the Covid-19 Pandemic Shadrack B. Ramokgadi, Mbekezeli C. Mkhize, 2022-12-31. This book offers an original and timely snapshot of contemporary lines of argument from various authors in the Global South on the Covid 19 pandemic as a complex emergency at the height of the pandemic. At the time of writing there were various levels of uncertainties from different countries, citizens, the public and private sectors, industries and economies who were in disarray. The book traces the origins of the Covid 19 pandemic in the province of Wuhan in China, the challenges and the responses from a multiplicity of countries, particularly from the Global South. Of particular importance, the book notes that vaccine uncertainty, limiting the spread of the virus and loss of life and employment were some of the major challenges that these governments and citizens were confronted with. Also, the sizes of various economies lead to various challenges that the abovementioned governments shouldered. The contributors shed light on various aspects related to the Covid 19 pandemic from various countries in the Global South and include but were not limited to securitised lockdowns, the use of militaries and complete closures of national and sometimes fragile economies as well as overburdened health systems. These are just some dire consequences of Covid 19 on the public and private sector, industries and economy. The book emphasises that despite myriad challenges reported, there are various lessons that can be learnt in terms of how the countries responded to the pandemic and in terms of how future pandemics can be handled. Finally, this is an interesting piece of work wherein contributors as a collective seek to shed light with regards to the unique perspectives from the Global South and at the same time give some guidance related to their specific areas of focus.

Daily Graphic Ransford Tetteh, 2014-09-10 **Living Politics in the City** Marion Hohlfeldt, Carmen Popescu, 2023-03-15. Public space and performativity from the perspective of architecture. In recent decades, architecture has been seen as a field of practice that contributes greatly to the performativity of public space. In spite of the explosion of virtual communities through social media and the limitations imposed by pandemics, architecture today still holds an active role in literally building our societies. Bearing in mind its acute politicisation in past years, *Living Politics in the City* looks at public space from the perspective of architecture and its effective contribution not as a prop but as an actual catalyst for embodying politics. The essays gathered

here span five continents activating various disciplinary approaches to architecture and examining it in different contexts from a Palestinian refugee camp to the most vibrant urban axis in Sao Paolo from the numerous city squares around the world crowded with rebellious populations to the proximal politics of housing in Australia Contributors Endriana Audisho University of Technology Sydney Maja Babic Charles University Alexandra Biehler Ecole Nationale Supérieure d'Architecture de Marseille Tracey Bowen University of Toronto Mississauga Etienne Delprat Rennes 2 University Claudia Faraone IUAV Venice School of Architecture ETICity Caterina Frisone Oxford Brookes University Catherine Grout ENSAPL Lille Pavel Kunysz University of Liège Flavia Marcello Swinburne University of Technology Eric Le Coguiec University of Liège Tova Lubinsky University of Technology Sydney Giovanna Muzzi IUAV Venice School of Architecture ETICity Can Onaner Ecole Nationale Supérieure d'Architecture de Bretagne Shadi Saleh KU Leuven Frédéric Sotinel Ecole Nationale Supérieure d'Architecture de Bretagne Karolina Wilczynska Adam Mickiewicz University Ian Woodcock Swinburne University of Technology This publication is GPRC labeled Guaranteed Peer Reviewed Content
