metaphysikae literally e after physicse merely indicated that part of Aristotle s oeuvre which came in its sequence after those chapters which dealt with physics Later it was misinterpreted by Medieval commentators on the classical texts as that which is above or beyond the physical and so over time metaphysics has effectively become the study of that which transcends physics This book provides a detailed resume of current knowledge about the Metaphysics Analele Universității Din Timișoara ,1995 **Analele Universității din Timișoara** ,1993 *Books in Series* ,1979 **Catalog of Copyright Entries.
