Brief Interventions for Risky Drinkers Antoni Gual,Peter Anderson,Hugo López-Pelayo,Jillian Reynolds,2016-06-29 Alcohol is the sixth leading risk factor for disability and premature death all over the world and one of the leading causes of premature mortality in western societies it is a leading risk factor for death in young and middle age males Heavy drinking accounts for about two thirds of the burden of disease attributable to alcohol In the early 1980s screening and brief interventions SBI in primary health care settings were proposed as effective strategies to identify risky drinkers and to help them reduce their drinking Since then a growing body of evidence including several meta analysis and Cochrane reviews has shown the efficacy and effectiveness of SBI in primary health settings However demonstrating the effectiveness of SBI has not been insufficient to facilitate its general implementation in the routines of primary health care physicians and in fact the dissemination of SBI has proven to be a difficult business Qualitative and quantitative research has identified most of the facilitators and barriers for its implementation and publicly funded research has been earmarked to address the dissemination problems worldwide Some examples are the World Health Organization Phase III and Phase IV studies on the identification and management of alcohol related problems in primary care EU funded projects PHEPA AMPHORA ODHIN BISTAIRS the UK SIPS trials and the SBIRT developments sponsored by the Substance Abuse what length should they be is

there a need for booster sessions is there added value of a motivational approach These questions together with other relevant aspects of SBI need ongoing research In recent years SBIs have been tested in settings other than primary health care including hospitals accident and emergency rooms criminal justice colleges and universities social services and pharmacies In some of those areas the evidence is scarce for example pharmacies while in others it is very promising for example students and hospitals New technologies have also offered the possibility of online tools and in the last few years different digital based applications have been tested successfully as new ways to deliver effective SBIs to larger amounts of people Brief interventions have also spread to drugs other than alcohol This book aims to be an update of the state of the art of brief advice It is a compilation of articles published by some of the most relevant researchers in the field in *Frontiers in Psychiatry* between 2014 and 2016 Books in Print Supplement ,1982 *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries,1979 **Paperbound Books in Print 1995** Reed Reference Publishing,R5ference Reed,1995-12 *At-risk Youth* J. Jeffries McWhirter,1998 This timely book addresses one of the biggest single problems facing society today at risk behavior in one quarter of our nation s youth and provides strategies for prevention and treatment that can be implemented in the schools in the homes and by helping professionals in a variety of settings Whether the term at risk is associated with a local school district s problems with child and adolescent suicide and school dropouts the correction system s concerns about juvenile delinquency or the health system s concerns with teen pregnancy child abuse and AIDS the individuals labeled at risk need the ongoing help of professional and this book can set the stage **Southwestern Aviation** ,1944 *Bulletin of the Tulane Medical Faculty* Tulane University.
