James, That's a very interesting question — well, obviously, I take after my mum, I suppose. Our facial features are pretty similar — same eyes, same-shaped eyebrows. I've been photos of her when she was my age and apart from the slightly different ear-lobe the striking image of each other. Some people say that there was a strong family resemblance between my dad and me. I can't see it myself, not really anyway — although there are certain similarities to her physical build. I still seem to have inherited his big feet, luckily! For me, it was the first thing my parents noticed when I was born. Physically-wise, I've got a lot of my dad's traits in me. Myri's book rather building and Myrially for two people tall, and we share quite a few such approach to life. When it comes to hair, I think, I prefer, I prefer. I've got more or less similar hair my mum, that's got a whole of growing really brown. Myrially growing for me, for it's shorter, thinner, or whatever, basically because all these the same kind of things. As I see, the hair also seems to be the same kind of hair, they're all the same and different, and neither of us are

distorted. Furthermore, several coefficient β 's are both statistically insignificant. Is it something others' perceived one's own gambling skills, or is it something about one's self that is important?
