S.M.A.R.T. Circle Overview Andy Liu, 2017-10-20
This book provides an overview of how to run a Mathematical Circle, i.e. an organization that discovers and nurtures young mathematical talents through meaningful extra-curricular activities. This is the first volume in a trilogy describing in particular the S M A R T Circle project which was founded in Edmonton, Canada, in 1981. The acronym S M A R T stands for Saturday Mathematical Activities, Recreations, Tutorials. This book, Volume I, offers a sampling of many aspects including projects and mini-courses. Volume II, which consists of student projects, addresses the purpose of the Circle. Volume III, consisting of mini-courses, explains what actually takes place in the Circle. All three volumes provide a wealth of resources: mathematical problems, quizzes, and games together with their solutions. The books will be of interest to self-motivated students who want to conduct independent research, teachers who work with these students, and teachers who are currently running or planning to run Mathematical Circles of their own.
