engineering Computer Theology Timothy Jurgensen, Bertrand du Castel, Timothy M. Jurgensen, 2008 Computers are complex tools of the human species To make them work well for us we have to specify their actions in very great detail When properly instructed networks of computers take on the trappings of human social orders derived from the physiological characteristics and capabilities of our species To create a social order we engage in grouping mechanisms through which the actions of the individuals within the group are influenced From a technical perspective such grouping mechanisms form the trust environments within which we can effect policy Historically the most comprehensive such environments have been formed by religions Within a specific religion the policy framework is established by a statement of theology So if we connect all the dots when we want to tell our computers how to act in a manner paralleling human social orders we must define for them a theology So goes the rationale explored in great detail by the authors of Computer Theology Based on their combined tenure of almost a century working in the realms of computer systems and their ubiquitous networks du Castel and Jurgensen have expressed both social and computer systems through the same concepts The result offers a unique perspective on the interconnection between people and machines that we have come to understand as the World Wide Web

Whitaker's Book List , 1988 **Computer Networks** Andrew S. Tanenbaum, Nickolas Feamster, 2019-02 Principles of Health Interoperability HL7 and SNOMED Tim Benson, 2010-05-06 Joined up healthcare makes information available when and where it is needed to improve safety efficiency and effectiveness Politicians may take interoperability between healthcare computer systems for granted but it is non trivial Healthcare integration projects are notoriously under estimated and come in over budget and over time Joined up healthcare depends on standards The two leading standards are the SNOMED CT which is a clinical terminology semantics and HL7 Version 3 which is a specialised healthcare interoperability language syntax Both are new complex and fit for purpose Tim Benson believes there is an unmet need for a book on

Healthcare Integration Some health informatics textbooks include chapters on HL7 and or SNOMED but these are usually quite short and cannot provide even an adequate introduction There is little of much value on the Internet or in journals or conference proceedings

Web Based Project Coaching Yuriy Taranovych,2013-05-24 The traditional project coaching takes place mostly in a number of face to face coaching sessions However under conditions of time pressure in IT projects a physical presence of coaches could form a bottleneck These facts led to the idea of using Internet technologies to support the project coaching The benefits of the web based project coaching reside in the ubiquitous availability of coaches To enable the web coaching a flexible support platform is required The elaboration of requirements design implementation and evaluation of such a platform is the goal of this dissertation The elaborated concept was applied and evaluated in real IT projects The numerous findings and implications could be gained on the empirical basis
