Telescopes Martin Peston,2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade s Autostar Goto facility My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55 com website From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage There have been

mixed reactions about its quality and performance Hence this book is directed towards those who are new to Goto and the LXD telescope *Internet of Things, Smart Spaces, and Next Generation Networking* Sergey Andreev, Sergey Balandin, Yevgeni Koucheryavy, 2012-08-22 This book constitutes the joint refereed proceedings of the 12 International Conference on Next Generation Teletraffic and Wired Wireless Advanced Networking NEW2AN and the 5th Conference on Internet of Things and Smart Spaces ruSMART 2012 held in St Petersburg Russia in August 2012 The total of 42 papers was carefully reviewed and selected for inclusion in this book The 14 papers selected from ruSMART are organized in topical sections named defining an internet of things ecosystem future services and smart space governing through service mashups The 28 papers from NEW2AN deal with the following topics wireless cellular networks ad hoc mesh and delay tolerant networks scalability cognition and self organization traffic and internet applications and wireless sensor networks They also contain 4 selected papers from the NEW2AN 2012 winter session *Samsung Rising* Geoffrey Cain, 2020-03-19 Longlisted for the 2020 Financial Times McKinsey Business Book of the Year Shines an incisive and entertaining light into the secretive world of the South Korean technology giant shaping our digital lives in ways we probably can't imagine Brad Stone Can the Asian giant beat Apple Based on years of reporting on Samsung for the Economist the Wall Street Journal and Time from his base in South Korea and his countless sources inside and outside the company Geoffrey Cain offers the first deep look behind the curtains of the biggest company nobody knows How has this happened Forty years ago Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer But with the rise of the PC revolution Chairman Lee Byung chul came up with an incredibly risky multimillion dollar plan to make Samsung a major supplier of computer chips Lee had been wowed by a young Steve Jobs who sat down with the chairman to offer his advice and Lee quickly became obsessed with creating a tech empire Today Samsung employs over 350 000 people over four times as many as Apple and their revenues have grown 40 times their 1987 level Samsung alone now make up more than 20% of South Korea's exports and sells more smartphones than any other company in the world And furthermore they don't just make their own phones but are one of Apple's chief supplier on technology critical to the iPhone Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company's headlong attempt to overtake Apple at any cost A sweeping insider account of the Korean's company's ongoing war against the likes of Google and Apple Samsung Rising shows how a determined and fearless Asian competitor is poised to take on the giants of the tech world Learning and Collaboration Technologies: New Challenges and Learning Experiences Panayiotis Zaphiris, Andri Ioannou, 2021-07-03 This two volume set LNCS 12784 and 12785 constitutes the refereed proceedings of the 8th International Conference on Learning and Collaboration Technologies LCT 2021 held as Part of the 23rd International Conference HCI International 2021 which took place in July 2021 Due to COVID 19 pandemic the conference was held virtually The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed
