The British National Daily Press and Popular Music, c.1956/1975 Gillian A.M. Mitchell, 2019-02-28 The British National Daily Press and Popular Music c 1956 1975 constitutes a reappraisal of the reactions of the national daily press to forms of music popular with young people in Britain from the mid 1950s to the 1970s including rock n roll skiffle beat group and rock music Conventional histories of popular music in Britain frequently accuse the newspapers of generating moral panic with regard to these musical genres and of helping to shape negative attitudes to the music within the wider society This book questions such charges and considers whether alternative perspectives on press attitudes towards popular music may be discerned In doing so it also challenges the tendency to perceive evidence from newspapers straightforwardly as a mere illustration of wider social trends and considers the manner in which the post war newspaper industry as a sociocultural entity in its own right responded to developments in youth culture as it faced distinctive challenges and pressures amid changing times

Journalism in Context Angela Phillips, 2014 Journalism in Context is an accessible introduction to the theory and practice of journalism in a changing world The book looks at the way in which power flows through media organisations influencing

not only what journalists choose to present to their audiences but how they present it and then in turn what their audiences do with it Using examples from across the world as well as from her own research Angela Phillips uses them to explain complex theoretical concepts She invites readers to consider how news is influenced by the culture from which it emerges as well as the way it is paid for and how different countries have approached the problem of ensuring that democracy is served by its media rather than being undermined by it Journalism has always been an early adopter of new technologies and the most recent changes are examined in the light of a history in which although platforms keep on changing journalism always survives The questions raised here are important for all students of journalism and all those who believe that journalism matters **The Language of Journalism** Melvin J. Lasky,2000 Newspaper Language Nicholas Bagnall,1993 Language is the working capital of the journalist However well the facts are gathered however good the ideas communicating them is the fundamental part of the business from back cover
