Tawney and His Times** Ross Terrill, 1973 Economic historian democratic socialist educator and British labor party activist R H Tawney touched many worlds His life too spanned great distance and change When he was born in Calcutta in 1880 Gladstone Tennyson and Queen Victoria were flourishing and the British Empire was approaching its height By the time of his death in 1962 the Empire had shrunk to a few tourist islands and socialism once so shocking was now commonplace Ross Terrill in this absorbing first study of Tawney s thought view his subject within three related contexts The first is Tawney the man Terrill makes skillful use of unpublished material the early diary speech and lecture notes letters interviews with friends and associates to tell the story of Tawney s life in relation to his times Second is social democracy Tawney was one of its most influential philosophers and prophets and this book argues for the continuing validity of his socialism as a path between capitalism and communism Third is British politics From Edwardian liberal consensus to mid century collectivist consensus Tawney s long career often at odds with prevailing orthodoxies offers a window on British political culture Four key ideas are found in Tawney s political thought equality and the dispersion of power the shape of socialism function and citizenship the life of socialism These ideas and indeed the life of the man himself Terrill believes are summed up in socialism as fellowship As long as men are men Tawney said a poor society cannot be too poor to find a right order of life nor a rich society too rich to have need to seek it This book is a blend of biography history and the study of political ideas It provides a striking portrait of a remarkable man and a panorama of changing ideas and situations in the society where he tried to realize his socialist vision It offers many glimpses of Tawney s associates among

them Beveridge the Webbs Laski A P Wadsworth Temple Margaret Cole and Leonard Woolf and surprising snippets like the fact that Tawney used the phrase private affluence and public squalor in 1919 **Social Democracy in the Making** Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism *Historians and the Church of England* James Kirby, 2016 In the Victorian and Edwardian era history was one of the most prized forms of cultural and intellectual activity it was quite simply the lens through which most of the educated population understood human society Historians and the Church of England uncovers for the first time the extent to which this historical understanding was conditioned by religious ideas and institutions Rejecting the traditional chronology of intellectual secularization it contends that the Church of England in particular remained an active force in the development of scholarship leaving a deep impression on history just as it was becoming a modern discipline It therefore challenges readers to revise their understanding of the history of both historiography and religion in the nineteenth and early twentieth centuries Forgotten Wives Ann Oakley, 2021-07-06 *Forgotten Wives* examines how marriage has contributed to the active disremembering of women's achievements Ann Oakley uses case studies of four women married to well known men to ask questions about gender inequality and contributes a fresh vision of how the welfare state developed in the early 20th century *History and Identity* Stefan Berger, 2022-01-20 This introduction to contemporary historical theory and practice shows how issues of identity have shaped how we write history Stefan Berger charts how a new self reflexivity about what is involved in the process of writing history entered the historical profession and the part that historians have played in debates about the past and its meaningfulness for the present He introduces key trends in the theory of history such as postmodernism poststructuralism constructivism narrativism and the linguistic turn and reveals in turn the ways in which they have transformed how historians have written history over the last four decades The book ranges widely from more traditional forms of history writing such as political social economic labour and cultural history to the emergence of more recent fields including gender history historical anthropology the history of memory visual history the history of material culture and comparative transnational and global history *The Working Men's College and the Tradition of Adult*

Education Tom Schuller, Richard Taylor, 2024-07-05 The Working Men's College WMC is the UK's oldest continuously running adult education institution and a very distinctive example of the British adult education tradition This volume brings the history of the WMC up to date following the 1954 centenary history by JFC Harrison Contributions from a range of professional educators explore topics such as the philosophy of the College the issue of women's entry college governance and the notion of community as it applies to changes in the composition of the student body Additional features include a chapter on the architectural history of the College an interview with Satnam Gill as the key figure who drove through crucial change at a time when the College might have died a chapter from the latest member of a family which has been closely involved with the College over four generations and a range of personal contributions from tutors and students from the past six decades This book will be of interest to historians of the nineteenth and twentieth centuries all those in UK adult education along with local Camden London community and political groups and the WMC's extensive family of former students and tutors

Christian Socialism Philip Turner, 2022-05-26 Christian Socialism arose in England in the mid nineteenth century as a response to the philosophy of political economy now commonly called neoliberalism Seeking not institutional change or nationalisation but a reform of the moral underpinnings of society it refuted the assumption that people are essentially selfish competitive individuals seeking nothing but personal happiness Although they did not deny the presence of selfishness its proponents believed that the social nature of humankind lies deeper than such egotism and conflict and pursued a society built on this belief Less prominent now than at the time of its inception Christian Socialism nevertheless continues into the twenty first century its

goal nothing less than a new society built upon the virtues of equality fellowship cooperation service and justice Philip Turner's careful exposition traces the history of this strand of Anglican political thought and restores confidence in its message for the future

From wealth creation to wealth distribution and social ethics from urban mission to religious studies and psychology the work of John Atherton was breathtaking in scope and variety Unifying all of his work however was a concern with engaging the work of theology with wider society With contributions from some of the leading lights in public theology today this book offers not only an appreciation of John Atherton's work within a prodigiously large array of disciplines but also an attempt to ask what next taking his work forward and considering where the future of public theology might lie John Atherton's last published article is also reproduced **Victorian Political**

Culture Angus Hawkins, 2015 Victorian Britain is often described as an age of dawning democracy and as an exemplar of the modern Liberal state yet a hereditary monarchy a hereditary House of Lords and an established Anglican Church survived as influential aspects of national public life with traditional elites assuming redefined roles After 1832 constitutional notions of mixed government gradually gave way to the orthodoxy of parliamentary government shaping the function and nature of political parties in Westminster and the constituencies as well as the relations between them Following the 1867-8 Reform Acts national political parties began to replace the premises of parliamentary government The subsequent emergence of a mass male electorate in the 1880s and 1890s prompted politicians to adopt new language and methods by which to appeal to voters while enduring public values associated with morality community and evocations of the past continued to shape Britain's distinctive political culture This gave a particularly conservative trajectory to the nation's entry into the twentieth century This study of British political culture from the late eighteenth to the early twentieth century examines the public values that informed perceptions of the constitution electoral activity party partisanship and political organization Its exploration of Victorian views of status power and authority as revealed in political language speeches and writing as well as theology literature and science shows how the development of moral communities rooted in readings of the past enabled politicians to manage far reaching change This presents a new overarching perspective on the constitutional and political transformations of the Victorian age **Routledge Encyclopaedia of Educational Thinkers** Joy Palmer
