Handbook on Multicultural Child Development Marcelett C. Henry, 2006-06 The training of children is a profession where we must know how to lose time in order to gain it By Jean Jacques Rousseau The purpose of this handbook is for the education of persons

who have children work with children or provide services for infants through age five to understand the development of a child and enable child care providers to become more aware of conditions and behaviors that surround the child and to identify problems that require immediate attention It is the responsibility of the child's parents and care providers to address issues that create the barriers to the full and productive development of a child without abrogation of parental rights and responsibilities A child born in the United States today is born into a culturally pluralistic world It is a challenge when culturally different is often viewed as defective deprived or deviant Therefore it is incumbent upon all adults to provide the best possible environment for living learning and respecting each person regardless to individual differences Many children's games have transcended barriers of language culture and forbidding geography Their universality has been noted everywhere in the world where there is the will to help a child Education has been directed to the in school youth and adults over the years Once the child departed the mother's womb it became the sole responsibility of the mother The world has changed significantly for the newborn to age five This does not mean that in school youth and others do not need more knowledge and assistance in this area However it does mean that we must lower the bar to address issues with the very young to prevent future problems This author's has more than 50 years experience with children in school youth adults and others in the areas of parenting teaching counseling and administration of educational programs at many levels It

Multicultural America Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent

on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors
