The Imperial Dictionary of the English Language John Ogilvie, 1883 *A Covid19 Pandemic & Proper Protocol for a Healthy Future!* David Heath, This book gives an expert scientist s takes on the Covid19 pandemic It includes emergency response protocols meshed with lessons learned in a graduate school class in Epidemiology I took the CDC Centers for Disease Control certification exam before our final exam and earned certification as CDC Atlanta GA was close to the University of Georgia in Athens I am an expert in Industrial Hygiene Indoor Air Quality Environmental Health 2 Evaluate Corrective Measures Necessary or Means of Evacuation 3 Notify Superiors or First Responders as the Problem Situation Could Kill or Wound You Making You Unable to Get Help to Arrive On scene in a Timely or Effective Manner or simply warn people to stay away or evacuate and finally 4 Control Measures that can be safely done until help and assistance arrive fairly simple to comprehend Now with pandemics you can apply well established spill containment protocols as if it were a biohazard waste spill and the clean up procedures and containments deemed necessary In hazardous spill safety protocols There is not enough being done for engineering controls HVAC to combat airborne viruses where simple Indoor Air Quality engineering control measures would help keep us healthy This can be combined with the tools we use for ISO 14000 and OSHAS 1800 for producing more environmentally health and safety friendly manufacturing products like printers and tape drives Lexmark and are 1 Substitution Use a more environmentally friendly chemical or process or get injected with a weakened form of that pandemic s viral phages Vaccinations 2 ENGINEERING CONTROLS the most overlooked debacle in the Covid 19 response other than testing Engineering controls are machine guarding vented tables and walls plexiglass shielding etc and in contagious disease emergencies can provide more effective control than PPE ever could 3 Administrative Controls which simply means limiting or sharing smaller amounts of time in a hazardous area through work area scheduling and then finally we get to 4 the least desirable control measure PPE why nobody wears it correctly and good fit must be established or why have a mask on at all So in Industry and Manufacturing PPE is always the last resort but is often used up front just in case the contaminant splashes on you or settles out of the air on you or into you digestion and respiration If one person or lots of people aren t wearing masks properly it completely not onl y defeats it s intended purpose but makes things worse Argh Scientists and Engineers need a 50 50 say with business managers when it comes to school and workplace crowded environments as well This means we did not do the proper pros cons or costs benefits analysis together well enough as businessmen and scientists at the onset of the contagion getting released or jumping species The same goes for school shootings and mass shootings if we merely apply these 8 established protocol guides The 8 protocols from Environmental Health and safety management and response that were largely ignored were more than a crying shame and borderline negligent in nature I sat on the sidelines unemployed with graduate level epidemiology and EH S training why was I sitting on the sidelines while nincompoops were managing situations they have no business managing in the first place Because we

did not have built in failsafes from an engineering control measures aspect as well as enough money to employ the right people and decision makers in nationwide and worldwide health emergencies It was beyond absurd We need better preparation and proactivity for the next pandemic that is coming when who knows maybe next year ugh The A.S.M.R. Asheru Romancha,2024-02-12 This book shows the automatic spontaneous intelligent design from a feedback loop between the right hemisphere matching by form and the resulting sacred fractal geometry of self similar sexual mimicry in the four dimensional human body He shows how this is done through the ASMR and thrill intelligence The missing link is no longer missing His book is a magnum opus on the alchemy of this subject **The Long and Winding Road** Vince

Tracy,2013-06-06 There must have been a time when you just could not get a certain song out of your head Perhaps it was the last sound played at the disco or perhaps theres a certain riff in a song that haunts you Perhaps its one of those songs which have a special meaning for you or a special person in your life Whatever the reason we all have had musical influences throughout our life and some we have deliberately chosen whilst others have crept in because we watch television and listen to the radio We also have been subjected to other musical influences from shops restaurants churches dance halls and anyone whistling or singing near us Why was it almost impossible to remember Shakespeares quotations when I tried to learn them for school yet I can remember words to songs without even trying to memorise them As someone who has made a living from playing music for others to listen to it has interested me greatly to find out whether any of the records which have made the popular music charts has had a greater influence on me than I have realized I will also try to remember the words to the songs I heard in my younger years without using either reference books or a safety net I will also attempt to put the music in some kind of time frame looking at what else was happening aside from the music I will also identify how my own appreciation of music has evolved and that charts become less important with age This will be the basis of a large part of my book I will also try to show that I have had to show a good amount of true grit and determination in order to eventually find the job I had always wanted from my childhood days of listening to Radio Luxembourg and Radio Caroline Moreover it takes a lifetime to really see your priorities Join me now in my musical voyage of discovery **Little But Fierce** Gigi
