

11. Draw a pedigree that represents Leah married to Aiden, with 2 sons and 1 daughter. Their son, Scott, married April and had Sutton (a boy) and Kendall (a girl). Their daughter, Karen, married Harry and had Eli (a son) and Tariq (a son). Please label the pedigree with the names of the people.

12. When working through a pedigree, the first thing you need to do is figure out which characteristic is dominant – the shaded one or the un-shaded one. Then you need to choose a letter (let's use A) and begin assigning genotypes. Remember that recessive individuals are always homozygous, so assign their genotypes first. Then go back and look at all of the dominant individuals. For some, you will only be able to determine one allele of the genotype, so just write the one capital allele followed by a question mark (A?).

- Which characteristic is dominant?
black
- Which characteristic is recessive?
white
- Determine the genotypes of all individuals. You will have three "A?". Write your Genotypes beneath each individual.

Identify the following pedigree charts as autosomal, X-linked, recessive, and dominant. Please explain your answer.

13. Is the following autosomal or X-linked? Is it dominant or recessive? Please explain.

X-linked recessive

More males affected than females

Offspring show disorder/trait but parents don't

14. Is the following autosomal or X-linked? Is it dominant or recessive? Please explain.

autosomal dominant

50% of males & 50% of females affected

Both parents & offspring show trait

15. Is the following autosomal or X-linked? Is it dominant or recessive? Please explain.

X-linked recessive

See reasons in question #13

16. If a child has an autosomal dominant trait, what can you say about the parents?

If the child has the disorder then one of the parents must have the disorder.

Public Affairs Reporting Now George Killenberg,2012-07-26 Everyday life no whether the issues or events arise next door or a continent away raises questions and concerns that the public counts on journalists to answer and more important confront More than ever before we all rely on the news media for warnings explanations and insights The profession and society cannot afford lazy inept uncommitted journalists Today s reporters must learn how to cover public affairs intelligently and thoroughly First you must learn about the institutions and people who influence the news understanding how a legislative conference committee functions or how a trial is conducted remain important pre requisites But it is not enough merely to know how to report Journalists must also understand how they see define and influence the news Don t be fooled by the daily dose of fluffy stories about fads fashions or fetishes People love to revel in celebrity gossip or fantasize about extreme makeovers But Donald Trump s love life or the South Beach Diet don t satisfy when people worry about a home invasion in their neighborhood or a rezoning proposal to bring a Wal Mart super center to town or a Department of Education report that their child s school scored bottom most in reading achievement Public Affairs Reporting Now is intended to teach

you the best practices and give you the best advice for covering what's generically known as public affairs reporting. It's a term that's neither inspiring nor precise but it's long been a convenient way of describing the kind of news coverage that keeps people informed as citizens and keeps our institutions public and private focused on the public good.
