SUMMING UP JOHN MENADUE, 2024-07-03 The world and its people are facing serious local and global challenges Climate change economic instability limits to free speech threats to independent media reporting and increasing social inequality all signal the breakdown of democratic systems across the world Our political institutions and leaders are failing us with increasingly conservative policies that favour big business Far right political movements gain ascendancy and move whole nations towards fascism while American hostility to China threatens global security and economic prosperity Yet we learn and grow most when we are challenged by difference and adversity when we are out of our comfort zones Such experiences offer turning points for change I've had many such turning points throughout my career and have become more radical as I've grown older In 1999 I published my autobiography *Things You Learn Along the Way* This new collection continues with personal accounts and my views on issues that remain of concern to me It comprises posts I wrote for Pearls and Irritations along with several speeches interviews and articles I've

written over the past 14 years I hope these accounts continue to prompt readers to think question and act for a more just Australia and world **Summing Up** United States. improving laws practices and procedures in jury trials Courts assume that jurors in a criminal trial understand and apply the judge's directions about the law This assumption is based on jury verdicts and the courts observations of jurors and inferences about juror comprehension Research reveals that the courts assumption about juror comprehension is fundamentally flawed Addressing this problem is essential for fair trials A jury centric approach is evidence informed and works within a fair trial framework It asks what jurors need to understand the issues that they must determine It also examines juror comprehension research and why judges and lawyers have often been sceptical about this research The book illustrates and evaluates a jury centric approach through three case studies involving structured decision making aids homicide laws and misconceptions in sexual offence cases The book proposes establishing an interdisciplinary Juries Advisory Council drawing on judicial and legal expertise as well as expertise in jury research The jury's task is increasingly complicated Reform is essential to help jurors understand their task and determine the issues on their legal and factual merits The book will be a valuable resource for academics researchers policymakers and students in the areas of Criminal Law Courts Human Rights Law Psycholinguistics and Organisational Psychology and to judges and lawyers [Ephesians](#)
