The Passion of Michel Foucault James Miller, 2000 Based on extensive new research and a bold interpretation of the man and his texts *The Passion of Michel Foucault* is a startling look at one of this century's most influential philosophers It chronicles every stage of Foucault's personal and professional odyssey from his early interest in dreams to his final preoccupation with sexuality and the nature of personal identity

**Days of God** James Buchan, 2013-10-15 A myth busting insider's account of the Iranian Revolution of 1979 that destroyed US influence in the country and transformed the politics of the Middle East and the world The 1979 Islamic revolution in Iran was one of the seminal events of our time It inaugurated more than thirty years of war in the Middle East and fostered an Islamic radicalism that shapes foreign policy in the United States and Europe to this day Drawing on his lifetime of engagement with Iran James Buchan explains the history that gave rise to the Revolution in which Ayatollah Khomeini and his supporters displaced the Shah with little difficulty Mystifyingly to outsiders the people of Iran turned their backs on a successful Westernized government for an amateurish religious regime Buchan dispels myths about the Iranian Revolution and instead assesses the historical forces to which it responded He puts the extremism of the Islamic regime in perspective a truly radical revolution it can be compared to the French or Russian Revolutions Using recently declassified diplomatic papers and Persian language news reports diaries memoirs interviews and theological tracts Buchan illuminates both Khomeini and the Shah His writing is always clear dispassionate and informative The Iranian Revolution was a turning point in modern history and James Buchan's *Days of God* is as London's Independent put it a compelling beautifully written history of that event

Letters and Other Texts Gilles Deleuze, 2020-06-23 A posthumous collection of writings by Deleuze including letters youthful essays and an interview many previously unpublished *Letters and Other Texts* is the third and final volume of the posthumous texts of Gilles Deleuze collected for publication in French on the twentieth anniversary of his death It contains several letters addressed to his contemporaries Michel Foucault Pierre Klossowski François Châtelet and Clément Rosset among others Of particular importance are the letters addressed to Félix Guattari which offer an irreplaceable account of their work as a duo from *Anti-Oedipus* to *What is Philosophy?* Later letters provide a new perspective on Deleuze's work as he responds to students questions his volume also offers a set of unpublished or hard to find texts including some essays from Deleuze's youth a few unusual drawings and a long interview from 1973 on *Anti-Oedipus* with Guattari

A Connecticut Yankee in King Arthur's Court Mark Twain, 1979-12-12 This is a small sampling of Mark Twain's life long fulminations against the editors printers and proofreaders who subtly or grossly altered his work and shrouded his intentions as they transmitted his writing from manuscript to type Through unauthorized changes and inadvertent errors Mark Twain's first publishers brought out texts full of thousands of errors in form and content Later publishers then based their reprints on these corrupt editions and added errors of their own It is the aim of the Iowa California edition to strip away this accretion of error and present texts faithful to

the author's intention. By comparing all the life-time versions of Mark Twain's works, the editors are able to isolate the author's revisions from the printer's and publisher's changes. The record of this comparison supplies not only the evidence for editorial decisions but also the history of the author's efforts to shape his work. In addition, these volumes included previously uncollected work that has long been out of print and such unpublished writing as related drafts, working notes, and marginalia. The texts are established at the Center for Textual Studies at the University of Iowa or at the Mark Twain Papers in The Bancroft Library at the University of California Berkeley.

*Gilles Deleuze* John Marks, 1998-05-01 Gilles Deleuze is widely regarded as one of the major post-war proponents of Nietzschean thought in continental philosophy. Over a period of forty years, he presented what amounts to a philosophy of vitalism and multiplicity, bringing together concepts from thinkers as diverse as Nietzsche and Hume. In the first comprehensive English-language introduction to Deleuze, John Marks offers a lucid reading of a complex, abstract, and often perplexing body of work. Marks examines Deleuze's philosophical writings as well as the political and aesthetic preoccupation which underpinned his thinking and provides a rigorous and illuminating reading of Deleuze's early studies of Hume, Nietzsche, Kant, Bergson, and Spinoza, his collaborations with Félix Guattari, and the development of a distinctively Deleuzian conceptual framework. Marks focuses on the philosophical friendship that developed between Deleuze and Foucault and considers the full range of Deleuze's fascinating writings on literature, art, and cinema. This is a clear and concise guide to the work of one of the twentieth century's most influential thinkers. **Points...**

Jacques Derrida, 1995 A collection of 23 interviews given over the last 2 decades illustrating the extraordinary breadth of Derrida's concerns. *Writings* Writing a Thesis Proposal First Edition, The Composition of Worlds Philippe Descola, 2023-10-18 In this autobiographical reflection, the distinguished anthropologist Philippe Descola looks back on his intellectual career and examines both the central themes of his work and the key questions that have shaped anthropological debates over the past forty years. A student of Lévi-Strauss, Descola conducted ethnographic research among the Achuar of the upper Amazon in the late 1970s, focusing on how native societies relate to their environment. In this book, he sheds fresh light on the evolution of his thinking from structuralism to an anthropology beyond the human, on the critique of the modern separation between nature and society, and above all, on the genesis and scope of his major work, *Beyond Nature and Culture*. This synthesis of the ways in which humans view their relationships with non-humans proposes four schemas for the composition of worlds: animism, naturalism, totemism, and analogism, that characterize our ways of inhabiting the earth. Presented in the form of an extended conversation with Pierre Charbonnier, this book is both a lucid introduction to the work of one of the most original anthropologists writing today and an impassioned plea for ontologies that are more accommodating of the diversity of beings.

**Torn Between America and China** Daniel Novotny, 2010 How can a developing democratic and predominantly Muslim country like Indonesia manage its foreign relations while facing a myriad of security concerns and dilemmas in the increasingly complex post-Cold War international politics without compromising its national interests and

sacrificing its independence Approaching this problem from the vantage point of the Indonesian foreign policy elite this book explores the elite's perceptions about other states and the manner in which these shape the decision making process and determine policy outcomes The combined qualitative and quantitative research strategy draws on a unique series of in depth interviews with 45 members of the Indonesian foreign policy elite that included the country's present and or former presidents cabinet ministers high ranking military officers and senior diplomats Among all state actors Indonesian relations with the United States and China are the highest concern of the elite The leaders believe that in the future Indonesia will increasingly have to manoeuvre between the two rival powers While the United States during George W Bush's presidency was seen as the main security threat to Indonesia China is considered the main malign factor in the long run with power capabilities that need to be constrained and counter balanced

**Inspecting the Interview** Carsten Junker, 2024-09-03 Interviews are omnipresent in scholarship and public discourses They play a crucial role in various spheres from collecting research data to providing persons in the public eye a platform in print and online media Interviews do not only capture a dialogue they provide a framework in which dialogue gets staged As such a framework the interview protocols experiential

knowledge and personal experience in certain ways according to interlocutors' different degrees of authority to speak. **Development as a Social Process** Serge Moscovici, Sandra Jovchelovitch, Brady Wagoner, 2013-03-06. This volume discusses the interface between human development and socio-cultural processes by exploring the writings of Gerard Duveen, an internationally renowned figure whose untimely death left a void in the fields of socio-developmental psychology, cultural psychology and research into social representations. Duveen's original and comprehensive J.K. Rowling: A Bibliography 1997-2013 Philip W. Errington, 2015-02-26. As someone who respects comprehensive research, I am in awe of the level of detail and amount of time Philip Errington has dedicated to this slavishly thorough and somewhat mind-boggling bibliography of J.K. Rowling. This is the definitive bibliography of the writings of J.K. Rowling. In addition to complete bibliographic details of each edition of all her books, pamphlets and original contributions to published works, there is detailed information on the publishing history of her work, including fascinating extracts from correspondence and information on Rowling at auction. This will be the first source on Rowling consulted by textual scholars, book dealers and collectors, auction houses, critics and researchers. The aim of the book is to record fact and dispel rumour on the fascinating publishing history of the Harry Potter series.

**Wrong-Doing, Truth-Telling** Michel Foucault, 2014-06-04. Three years before his death, Michel Foucault gave a series of lectures at the Catholic University of Louvain that have remained relatively unknown until only recently. Entitled *Wrong-Doing, Truth-Telling*, these lectures provide the missing link between Foucault's early work on sexuality and punishment and his later work on Greek and Roman antiquity. Ranging broadly from Homer to the 20th century, Foucault traces how the early ethical acts of truth-telling in ancient Greece gradually metamorphosed into acts of self-incrimination in monastic times and ultimately into the birth and rise of psychiatry as the foundation of modern penology, criminology and criminal justice. For Foucault, self-incrimination no longer did the work necessary to quell justice because by the 19th century we wanted to know more than just the fact of wrongdoing; we wanted to know who the criminal was, not just whether the accused committed the crime but what it was about him that made him commit the crime. An avowal of wrong-doing was no longer sufficient; psychiatric expertise was now necessary, and that development marks the birth of discipline and modern criminal justice made so famous by Foucault.
