This edited volume investigates for the first time the impact of conspiracy theories upon the understanding of Europe as a geopolitical entity as well as an imagined political and cultural space Focusing on recent developments the individual chapters explore a range of conspiratorial positions related to Europe In the current climate of fear and threat new and old imaginaries of conspiracies such as Islamophobia and anti-Semitism have been mobilised A dystopian or even apocalyptic image of Europe in terminal decline is evoked in Eastern European and particularly by Russian pro Kremlin media while the EU emerges as a screen upon which several narratives of conspiracy are projected trans nationally ranging from the Greek debt crisis to migration Brexit and the COVID 19 pandemic The methodological perspectives applied in this volume range from qualitative discourse and media analysis to quantitative social psychological approaches and there are a number of national and transnational case studies This book will be of great interest to students and researchers of extremism conspiracy theories and European politics **Reassessing Russia's Security Policy** Nurlan Aliyev,2023-12-11 This book provides a detailed analysis of the evolution of Russia's security policy Based on extensive original research including an analysis of official documents political and military elite speeches interviews and reports and considering the subject from the early 20th century onward the book evaluates how far Russia's security policy is underpinned by strategic asymmetry the acceptance by Russia of its inferior military position and the pursuit of its strategic aims through the application of a variety of methods military and non military including the manipulation of public opinion the use of economic leverage and external security approaches known as Russia's hybrid war operations to gain the advantage over a militarily and economically superior adversary The book discusses how Russia's security policy has been and is being applied in specific cases including the present war in Ukraine the Russian anti satellite program and Russia's contemporary Afghan policy The aim of the book is to explain how and why Russia uses different security strategies and methods using these three cases Radio

Propaganda and the Broadcasting of Hatred K. Somerville,2012-08-31 An exposition and analysis of the development of propaganda focusing on how the development of radio transformed the delivery and impact of propaganda and led to the use of radio to incite hatred and violence **Cold Peace: Avoiding the New Cold War** Michael W. Doyle,2023-04-25 An urgent examination of the world barreling toward a new Cold War By 1990 the first Cold War was ending The Berlin Wall had fallen

and the Warsaw Pact was crumbling following Russia's lead cries for democracy were being embraced by a young Chinese populace. The post Cold War years were a time of immense hope and possibility. They heralded an opportunity for creative cooperation among nations, an end to ideological strife, perhaps even the beginning of a stable international order of liberal peace. But the days of optimism are over. As renowned international relations expert Michael Doyle makes hauntingly clear, we now face the devastating specter of a new Cold War, this time orbiting the trilateral axes of Russia, the United States, and China, and exacerbated by new weapons of cyber warfare and more insidious forms of propaganda. Such a conflict at this phase in our global history would have catastrophic repercussions. Doyle argues, stymieing global collaboration efforts that are key to reversing climate change, preventing the next pandemic, and securing nuclear nonproliferation. The recent devastating invasion of Ukraine is both an example and an augur of the costs that lay in wait. However, there is hope. Putin is not Stalin, Xi is not Mao, and no autocrat is a modern Hitler. There is also an unprecedented level of shared global interest in prosperity and protecting the planet from environmental disaster. While it is unlikely that the United States, Russia, and China will ever establish a warm peace, there are significant, reasonable compromises between nations that can lead to a *détente*. While the future remains very much in doubt, the elegant set of accords and non-subversion pacts Doyle proposes in this book may very well save the world. Secrecy in Public Relations, Mediation and News Cultures Anne M. Cronin, 2023-01-19. This book investigates the relationship of secrecy as a social practice to contemporary media, news, cultures, and public relations. Drawing on Georg Simmel's theorisation of how secrecy produces a second world alongside the obvious world and creates and reshapes social relations, Anne Cronin argues for close analysis of the PR industry as a powerful vector of secrecy and an examination of its relationship to news cultures. Using case studies and in-depth interviews, as well as recent research in media and cultural studies, sociology, journalism studies, and communication studies, the book analyses how PR practices generate a second shadow world of the media sphere which has a profound impact on the obvious world. It interrogates both the PR industry's and news culture's role in shaping social relations for a digital media landscape and those initiatives promoting transparency of data and decision-making processes. An insightful interdisciplinary approach to debates on media and power, this book will appeal to students of public relations, sociology, media studies, cultural studies, and communication studies. It will also be of interest to scholars and practitioners working at the intersections of media, social relations, and public trust. **Organiser**, 1982-11. **ICCWS 2020 15th International Conference on Cyber Warfare and Security** Prof. Brian K.
