## **The Land Of The Living Sunrise:**

**The Land of the Living** Steven M. Borish, 1991 The Land of the Living is a study of the Danish folk high schools a remarkable alternative school form that has endured in Denmark for nearly 150 years The existence of the folk high schools today allows the Danish citizen to undertake a direct personal experience in free education For a limited period in his or her life any Danish citizen can enter a folk high school and encounter a variety of new ideas people and places Beginning with a year's total immersion in three folk high schools Steven Borish embarked on a personal journey through Danish society His journey took him from the fields and small towns of Jutland to the busy streets of Copenhagen and enabled him to see Denmark as few foreigners ever have Combining his anthropological sensitivity with the broader outlook of the historian he came to ask a unique and unprecedented set of questions about the path to modernization taken by Danish society The author's inquiry is centered around an historical puzzle Why did the same modernization process that was so often accompanied by violent repression elsewhere take place more peacefully and non-violently in Denmark His research took him back to the remarkable Danish Land Reforms of the late 18th century and to the life and work of a major prophetic figure N F S Grundtvig 1783-1872 The schools for life the People's Enlightenment the living word these are some of the ideas set forth by Grundtvig who in 1830 first proposed the establishment of a new type of school in Denmark Professor Borish's description of these events provides a living example of how the people of one small country responded to a series of political and economic crises with a non-violent political revolution that enabled them quite literally to rise from the ashes Yet the author presents this historical analysis not as an end but as a departure point for understanding the Danish present In an unusual blend of cultural analysis and personal observation he brings contemporary Denmark alive for the reader with his description of today's folk high schools This well researched and meticulously documented study represents the first definitive account of Danish society to be written by a non-Dane Its creative use of techniques from anthropology and related fields is certain to attract favorable attention from all those interested in the problems of social and historical analysis The Land of the Living Dead Neal Fyne, 1978 Storymaking in Bereavement Alida Gersie, 1991 With reflections on the process of grief experienced in bereavement these 12 stories are about man's struggle with death and loss Intended to stimulate coping helping skills each tale is accompanied by three story making structures involving the themes **To the Land of the Living** Robert Silverberg, 2011-11-14 What if there were an Afterworld Not Heaven or Hell in the conventional sense but a place where everyone who has ever lived reawakens when they die to live again and die again and live again seemingly forever This is the premise of Robert Silverberg's brilliantly inventive new fantasy novel The central character is the legendary warrior king Gilgamesh who has been in the Afterworld longer than almost anyone else save the Hairy Men from before the Flood and who in recent centuries insofar as you can count time has seen it change beyond recognition as the newly dead from industrial times import their machinery their weaponry and their attitudes Gilgamesh's adventures in the

course of the novel take him to the Afterworld realms of other quasi mythical figures like Prester John and Simon Magus bring him into contact with such figures from more recent history as Walter Raleigh and Pablo Ruiz known to some as Picasso and eventually send him in search of a gateway which is rumoured to exist somewhere in the land of the dead a gateway which leads back to the land of the living Land of the Living Georgina Harding,2019-10-31 A SUNDAY TIMES NEW STATESMAN AND SPECTATOR BOOK OF THE YEAR Vivid illuminating and unbearably tense A masterly meditation on trauma on beauty on the idea of home and the limits of love Guardian Charlie s experiences at the Battle of Kohima and the months he spent lost in the remote jungles of Nagaland during the Second World War are now history Home and settled on a farm in Norfolk and newly married to Claire he is one of the lucky survivors Starting a family and working the land seem the best things a man can be doing But a chasm exists between them Memories flood Charlie s mind at night on rain slicked roads and misty mornings in the fields the past can feel more real than the present Though hidden even to himself the darkest secrets of Charlie s adventures in the strange and shadowy ridges of the Nagaland mountains his dream like encounters with the mysterious and ancient tribesmen leak and bleed through his consciousness What should be said and what left unsaid Is it possible to forge a new life in the wake of unfathomable horror A compelling addition to Harding s cycle of acclaimed novels on themes of witness memory and silence Land of the Living questions the very nature of survival and what it is that the living owe the dead **In the Land of the Living and Other Poems** Mary Yelland,1917 Land of the Living John Hearne,1962 Young Jewish refugee scientist is drawn back into the midstream of life on a Caribbean island

**THE STORY OF THE GLITTERING PLAIN, OR THE LAND OF LIVING MEN.** WILLIAM MORRIS,1892 **Living in the Land of Death** Donna L. Akers,2004-07-31 With the Indian Removal Act of 1830 the Choctaw people began their journey over the Trail of Tears from their homelands in Mississippi to the new lands of the Choctaw Nation Suffering a death rate of nearly 20 percent due to exposure disease mismanagement and fraud they limped into Indian Territory or as they knew it the Land of the Dead the route taken by the souls of Choctaw people after death on their way to the Choctaw afterlife Their first few years in the new nation affirmed their name for the land as hundreds more died from whooping cough floods starvation cholera and smallpox Living in the Land of the Dead depicts the story of Choctaw survival and the evolution of the Choctaw people in their new environment Culturally over time their adaptation was one of homesteads and agriculture eventually making them self sufficient in the rich new lands of Indian Territory Along the Red River and other major waterways several Choctaw families of mixed heritage built plantations and imported large crews of slave labor to work cotton fields They developed a sub economy based on interaction with the world market However the vast majority of Choctaws continued with their traditional subsistence economy that was easily adapted to their new environment The immigrant Choctaws did not however move into land that was vacant The U S government through many questionable and some outright corrupt extralegal maneuvers chose to believe it had gained title through negotiations with some of the peoples whose homelands

and hunting grounds formed Indian Territory Many of these indigenous peoples reacted furiously to the incursion of the Choctaws onto their rightful lands They threatened and attacked the Choctaws and other immigrant Indian Nations for years Intruding on others rightful homelands the farming based Choctaws through occupation and economics disrupted the traditional hunting economy practiced by the Southern Plains Indians and contributed to the demise of the Plains ways of life
