The Japanese Community in Pre-War Britain Keiko Itoh, 2013-07-04 Explores the origins of the

community and compares the experience of the Japanese to that of other national groups The book discusses the community's involvement in the arts religion and sport intermarriage and the second generation and concludes by considering the impact of deteriorating relations in the 1930s and of the Second World War The Power of Urban Ethnic Places Jan Lin, 2010-10-18 The Power of Ethnic Places discusses the growing visibility of ethnic heritage places in U S society The book examines a spectrum of case studies of Chinese Latino and African American communities in the U S disagreeing with any perceptions that the rise of ethnic enclaves and heritage places are harbingers of separatism or balkanization Instead the text argues that by better understanding the power and dynamics of ethnic enclaves and heritage places in our society we as a society will be better prepared to harness the economic and cultural changes related to globalization rather than be hurt or divided by these same forces of economic and cultural restructuring **Community Analysis Report** United States. Lise-Hélène Smith, Anjana Narayan, 2011-12-28 This collection draws insights from an interdisciplinary group of scholars who specialize in diverse methods ranging from ethnography archival research and oral histories to quantitative data analysis and experiments used in the social sciences and humanities to reflect on the empirical methodological and practical implications of conducting research beyond one s national borders The goal of this book is to help researchers contemplate existing orientations that dominate current research processes and consider the need for transnational multidisciplinary practices that remain aware of the inequalities which continually inform research practices With this focus this collection is also a resourceful initiative that seeks to share experiences as well as extract key ideas and approaches likely to overlap or resonate in different disciplines **Health, Illness, and Medical Care in Japan** Edward Norbeck, Margaret Lock, 2019-03-31 This is one of the first attempts to explore the effects of social political and cultural variables on the interpretation of ideas about health illness and medical care in a technologically rich society In this collection of essays five anthropologists and one political scientist demonstrate that modern medical care in Japan is not a uniform value free scientific endeavor but rather a culturally shaped part of a complex pluralistic medical system that is itself the product of a specific historical and social tradition The comparative study of health illness and medical care provides a rich source of cross fertilization of ideas among the social sciences This collection of essays offers new insights on and raises new questions about contemporary Japanese society biomedicine as a cultural product and the transformation that occurs when medical knowledge and techniques are used in a different cultural milieu

Race, Poverty, and Social Justice José Z. Calderón, 2023-07-03 This volume explores multiple examples of how to connect classrooms to communities through service learning and participatory research to teach issues of social justice The various chapters provide examples of how collaborations between students faculty and community partners are creating models of democratic spaces on campus and off campus where the students are teachers and the teachers are students The purpose of this volume is to provide examples of how service learning can be integrated into courses addressing social justice issues At the same time it is about demonstrating the power of service learning in advancing a course content that is community based and socially engaged To stimulate the adaptation of the approaches

Schneider,2013-04-19 Why do the vast majority of heroin users live in cities In his provocative history of heroin in the United States Eric C Schneider explains what is distinctively urban about this undisputed king of underworld drugs During the twentieth century New York City was the nation s heroin capital over half of all known addicts lived there and underworld bosses like Vito Genovese Nicky Barnes and Frank Lucas used their international networks to import and distribute the drug to cities throughout the country generating vast sums of capital in return Schneider uncovers how New York as the principal distribution hub organized the global trade in heroin and sustained the subcultures that supported its use Through interviews with former junkies and clinic workers and in depth archival research Schneider also chronicles the dramatically shifting demographic profile of heroin users Originally popular among working class whites in the 1920s heroin became associated with jazz musicians and Beat writers in the 1940s Musician Red Rodney called heroin the trademark of the bebop generation It was the thing that gave us membership in a unique club he proclaimed Smack takes readers through the typical haunts of heroin users 52nd Street jazz clubs Times Square cafeterias Chicago s South Side street corners to explain how young people were initiated into the drug culture Smack recounts the explosion of heroin use among middle class young people in the 1960s and 1970s It became the drug of choice among a wide swath of youth from hippies in Haight Ashbury and soldiers in Vietnam to punks on the Lower East Side Panics over the drug led to the passage of increasingly severe legislation that entrapped heroin users in the criminal justice system without addressing the issues that led to its use in the first place The book ends with a meditation on the evolution of the war on drugs and addresses why efforts to solve the drug problem must go beyond eliminating supply Romance and the Yellow Peril Gina Marchetti,1994-02-15 Hollywood films about Asians and interracial sexuality are the focus of Gina Marchetti s provocative new work While miscegenation might seem an unlikely theme for Hollywood Marchetti shows how fantasy dramas of interracial rape lynching tragic love and model marriage are powerfully evident in American cinema The author begins with a discussion of D W Griffith s Broken Blossoms then considers later films such as Shanghai Express Madame Butterfly and the recurring geisha movies She also includes some fascinating forgotten films that have been overlooked by critics until now Marchetti brings the theoretical perspective of recent writing on race ethnicity and gender to her analyses of film and television and argues persuasively that these media help to perpetuate social and racial inequality in America Noting how social norms and taboos have been simultaneously set and broken by Hollywood filmmakers she discusses the orientalist tensions underlying the construction of American cultural identity Her book will be certain to interest readers in film Asian women s and cultural studies "Ambassadors of Good Will" Katrina L.
