Lupoff, 2007      **Descriptions and Beyond** Marga Reimer, Anne Bezuidenhout, 2004 In 1905 Bertrand Russell published *On Denoting* in which he proposed and defended a quantificational account of definite descriptions Forty five years later in *On Referring* Peter Strawson claimed that Russell was mistaken definite descriptions do not function as quantifiers but paradigmatically as referring expressions Ever since scores of theorists have attempted to adjudicate this debate Others have gone beyond the question of the proper analysis of definite descriptions focusing instead on the complex relations between definites indefinites and pronouns These relations are often examined with attention to the phenomena of scope and anaphora This collection assembles nineteen new papers on definite descriptions and related topics The contributors include both philosophers and linguists many of whom have been active participants in the various debates concerning descriptions The volume contains a brief general introduction and is divided into six sections each of which is accompanied by a detailed introduction of its own Several of the sections concern issues associated with the Russell Strawson debate These include the sections on incomplete descriptions the referential attributive distinction and presupposition and truth value gaps There is also a section on the representation of definites and indefinites in semantic theory containing papers that reject certain core assumptions of the Russellian paradigm Linguists interested in definites have traditionally been concerned with how such expressions interact with other expressions including pronouns and indefinites They have explored and continue to explore these interactions through the complex phenomena of scope and anaphora In the section dealing with anaphoric pronouns and descriptions indefinites and dynamic syntax semantics five linguists propose and defend their views on these and related issues Finally there is a section that concerns the relation between proper names and descriptions and more particularly the idea that some names those introduced into the language by description are semantically equivalent to definite descriptions

realization that three of their friends are missing With the local sheriff stumped for clues and the list of suspects growing Kate decides to roll the dice and try a little sleuthing on her own But when another body part shows up this dedicated fan of mysteries knows the odds are stacked against her Relying on her new detective kit her natural curiosity and a flare for unearthing clues Kate has to gamble that she can catch a killer before more heads roll This book was originally published under the title Whack n Roll      Double Blind (The Witch Who Came In From The Cold Season 1 Episode 3) Max Gladstone, Fran Wilde, Lindsay Smith, Cassandra Rose Clarke, 2017-02-22 Tanya and the Host make a break for it while Gabe seeks redemption in the latest episode of The Witch Who Came in from the Cold the spellbinding online serial that mixes conspiracy suspense and sorcery like a collaboration between John le Carre and Neil Gaiman A high stakes cat and mouse game unfolds across the frozen streets of Prague as Tanya and Nadia employ spycraft and witchcraft alike to elude the agents of the Flame and get a terrified young Host to an Ice safehouse But Gabe is also on their trail attuned to the Host thanks to his own burgeoning magic and desperate to atone for past failures What could possibly go wrong This episode is brought to you by Max Gladstone who has done his fair share of vodka swigging Na zdrav Praise for The Witch Who Came in from the Cold Those who like to mix magic spycraft and secret history should enjoy this it may please fans of Stross's Laundry series Locus Magazine Full of fast paced high intensity action paired with magic at a level that has not been seen until now with a cliff hanger that lets readers know that the game is not over and has only just begun The San Francisco Book Review The Witch Who Came in from the Cold is a chilly evocation of a different kind of Cold War Charles Stross author of the Laundry Files series Take a double shot of Le Carré a dash of Deighton a twist of Quiller a splash of Al Stewart's The Year of the Cat throw in a jigger full of elemental magic mix well and voil The Witch Who Came In From The Cold Victor Miln author of The Dinosaur Lords The occult love child of John le Carre and The Sandbaggers Marie Brennan author of A Natural History of Dragons As soon as I saw that I was instantly hooked and the pilot jacked the intrigue to the max Two female Soviet spy witches an American spy with something weird drilling magical holes in his head and a world of secrets within secrets in a locale where old world myth and the Cold War face off pedal to the metal it's awesome Or as we said in 1970 Far out Sherwood Smith author of Crown Duel The installments are easy to read one at a time but the tangles of alliances secrets and shocking double crosses will have readers up all night mumbling Just one more Publishers Weekly starred review      Jupiter's Blood Steven Laine, 2024-05-01 American wine expert Dante Lombardi is struggling to come to terms with his best friend's suicide His world is further upended when his ex Dr Claire Durant introduces him to a synthetic lab made wine she's developed Replivino can pass for the finest wines produced by the world's best winemakers at a fraction of the cost When Claire and her company's Vino Code disappear however Dante must put his feelings for what he deems Frankenwine aside and rush to Europe to find her But Dante isn't the only one looking for Claire as she pursues her own agenda to pop the cork on the traditional world of wine So too is a ruthless wine counterfeiter In a race across Europe Dante

*Relativism* Maria Baghramian, 2004-08-05 It's all relative In a world of increasing cultural diversity it can seem that everything is indeed relative But should we concede that there is no such thing as right and wrong and no objective truth Can we reconcile relativism and pluralism Relativism surveys the different varieties of relativism and the arguments for and against them and examines why relativism has survived for two thousand years despite all the criticisms levelled against it Beginning with a historical overview of relativism from Pythagoras in ancient Greece to Derrida and postmodernism Maria Baghramian explores the resurgence of relativism throughout the history of philosophy She then turns to the arguments for and against the many subdivisions of relativism including Kuhn and Feyerabend's ideas of relativism in science Rorty's relativism about truth and the conceptual relativism of Quine and Putnam Baghramian questions whether moral relativism leads to moral indifference or even nihilism and whether feminist epistemology's concerns about the very notion of objectivity can be considered a form of relativism She concludes the relativism debate by assessing the recent criticisms such as Quine's argument from translation and Davidson's claim that even the motivations behind relativism are unintelligible Finding these criticisms lacking Baghramian proposes a moderate form of pluralism which addresses the legitimate worries that give rise to relativism without incurring charges of nihilism or anarchy Relativism is essential reading for anyone interested in contemporary philosophy sociology and politics

**Lynn Iron Lightning** Mishari Almatrouk, She was eight when they took her Fourteen years in solitary turned her into something else Not a weapon Not a monster Just a girl trying to remember how to feel The world ended in fire Cities fell Nature reclaimed everything And from the ashes rose the Neuroterrans a cold merciless regime that kills anyone who harms the Earth They imprisoned Lynn Iron Lightning after they murdered her father Her sentence a hidden cell no light no warmth no human connection Just silence Now she's free but freedom feels more like confusion than victory The world outside is just as cruel as the one she left behind And Lynn broken and undeveloped is forced to survive it all with the heart of a child locked in a woman's body She's not out for revenge She doesn't want war She just wants to understand what it means to be alive to be loved to be safe But in a shattered world full of warlords cybernetic monsters and violent survivors even that might be too much to ask For readers who crave post apocalyptic sci fi with emotional depth raw trauma and characters who feel painfully real this is your story Lynn Iron Lightning is a brutal beautiful journey through the aftermath of survival
