Accented America Joshua L. Miller, 2011-05-26 Accented America is a sweeping study of U S literature between 1890 1950 that reveals a long history of English Only nationalism the political claim that U S citizens must speak a nationally distinctive form of English This perspective presents U S literary works written between the 1890s and 1940s as playfully painfully and ambivalently engaged with language politics thereby rewiring both narrative form and national identity The United States has always been a densely polyglot nation but efforts to prove the existence of a nationally specific form of English turn out to be a development of particular importance to interwar modernism If the concept of a singular coherent and autonomous American language seemed merely provocative or ironic in 1919 when H L Mencken emblazoned the phrase on his philological study within a short period of time it would come to seem simultaneously obvious and impossible Considering the continuing presence of fierce public debates over U S English and domestic multilingualisms demonstrates the symbolic and material implications of such debates in naturalization and citizenship law presidential rhetoric academic language studies and the artistic renderings of novelists Against the backdrop of the period s massive demographic changes Accented America brings a broadly multi ethnic set of writers into conversation including Gertrude Stein Jean Toomer Henry Roth Nella Larsen John Dos Passos Lionel Trilling Am rico Paredes and Carlos Bulosan These authors shared an acute sense of linguistic standardization during the interwar era and contend with the defamiliarizing sway of radical experimentation with invented and improper literary vernaculars Mixing languages these authors spurn expectations for phonological exactitude to develop multilingual literary aesthetics Rather than confirming the powerfully seductive subtext of monolingualism that those who speak alike are ethically and politically likeminded multilingual modernists composed interwar novels that were characteristically American because not in spite of their synthetic syntaxes and enduring strangeness

[Feasting the Heart](#) Reynolds Price, 2001-01-23 Ranging from his experiences as a writer to topics of faith and racial intolerance Reynolds Price s stories from National Public Radio s All Things Considered showcase the author s consistent talent for lyrical prose

and insightful observations and all those stories are now compiled here in *The Feasting Heart* In the fall of 1993 Alice Winkler of National Public Radio's Morning Edition asked Reynolds Price to write a short story for a Christmas morning broadcast This assignment would result in NPR's inviting Price to join its varied group of commentators on All Things Considered The laws of radio require a concision that became a welcome new discipline for Price these are all the personal essays which he has broadcast since July 25 1995 Whether recounting events from his past examining the details of his current experience as a writer teacher traveler and general witness of the world Price demonstrates in his direct prose that a writer can instantly connect with his audience He discusses a few predictable topics family the poisonous mysteries of racial intolerance and faith but he also deals with new matters capital punishment *Gone With the Wind* his adventures while navigating an immensely inaccessible America in a wheelchair and he provides a memorable piece on childlessness Throughout Price never loses sight of the origin of either the word or the spirit of the essay the French word connotes a try an attempt and each piece here is a well formed revealing often amusing and refreshing foray into a moment unlike any we've encountered in other forms from him We're unlikely to read more thought provoking work from a commentator for a great time to come
