The Literary Criticism Of Frank Norris:

The Literary Criticism of Frank Norris Frank Norris, 1976 *The Literary Criticism of Frank Norris* Donald Pizer, 1964-06-01 All of American author Frank Norris's significant critical writings have been compiled in this book including his articles for the San Francisco Wave during 1896-1897 and selections from his Weekly Letter column for the Chicago American in 1901. Essays from these two previously unexploited sources comprising almost half the book reveal certain areas of Norris's thought which heretofore had been overlooked by scholars. This book was compiled in order to clarify Frank Norris's literary creed. When Donald Pizer began to read Norris's uncollected critical articles he observed concepts which had been unnoted or misunderstood by his critics. Crediting this to the inadequate representation of Norris's ideas in the posthumous *The Responsibilities of the Novelist* 1903 Pizer recognized the need for an interpretive and complete edition of Norris's critical writings. This volume thus fills a noticeable gap in the field of American literary criticism. By the time of his death in 1902 Norris had a closed system of critical ideas. This core of ideas however is only peripherally related to the conventional concept of literary naturalism which perhaps explains why critics have gone astray trying to find Zolaesque ideas in Norris's criticism. Norris's central idea around which he built an aesthetic of the novel was that the best novel combines an intensely primitivistic subject matter and theme with a highly sophisticated form. His paradox of sophisticated primitivism clarifies the vital link between the fiction produced in the 1890s and that written by Hemingway, Faulkner and Steinbeck. Norris's essays deal with many of the literary themes which preoccupy modern critical theorists. His range of subjects includes the form and function of the novel, definitions of naturalism, realism and romanticism and the problem of what constitutes an American novel. His interpretation of commonplace events, his comments on prominent figures of his day and his parodies of writers such as Bret Harte, Stephen Crane and Rudyard Kipling are characterized by ingenuity and perception. Through these writings the personality of a man with well defined convictions and the ability to expound them provocatively comes into sharp focus. In a general introduction Pizer summarizes Norris's critical position and surveys his career as literary critic. This introduction and the interpretative introductions preceding each section constitute an illuminating essay on the literary temper of the period and provide a new insight into Norris's craft and his literary philosophy.

Frank Norris and American Naturalism Donald Pizer, 2018-05-30 Frank Norris is a seminal figure in the history of American literary naturalism despite the brevity of his career. *Frank Norris and American Naturalism* brings together in one volume Donald Pizer's lifelong exploration of the naturalist's work ranging from his 1955 discussion of point of view in *The Octopus* to his 2010 essay on the thematic unity of that novel. The essays in *Frank Norris and American Naturalism* as a whole seek to demonstrate both the coherence of Norris's thought and his contribution toward the establishment of a specific form of naturalism in America. The collection's principal focus is Norris's most enduring works, the novels *McTeague* and *The Octopus*, though his other fiction and literary criticism are also discussed. **A Novelist in the Making** Frank Norris, 1970

Blix is an autobiographical novel in which the main character Condry Rivers gets his story ideas from Captain Jack. An excerpt reads: Bessemer was one of those men who seem entirely disassociated from their families. Only on rare and intense occasions did his paternal spirit or instincts assert themselves. At table he talked but little. Though devotedly fond of his eldest daughter, she was a puzzle and a stranger to him. His interests and hers were absolutely dissimilar. The children he seldom spoke to but to reprove while Howard, the son, the ten year old and terrible infant of the household he always referred to as that boy.

The Responsibilities of the Novelists Frank Norris, 1916-10-15. The late Frank Norris's literary essays marshaled handsomely between covers under the title The Responsibilities of the Novelist impress one on the first browsing with a sense of vague regret. Here is something that should not have been yet one knows not at first exactly what nor why. But as you read the feeling grows that this book would never have appeared had the author lived to decide the question for himself. The essays are good, amazingly good, some of them their sanity never fails, their simplicity and force lack nothing, they are fresh, leisurely, progressive, healthy. But they are young and uneven. Norris was a man who grew fast. There are five years between some of these essays, written according to the bibliography in the back of the volume, only a few months apart. The book's entire contents was dashed off within two years and in that time Norris grew ten. We venture the prediction that none of the essays in the present volume would have passed muster of this growing author for admission to his ranks of books. Already had he lived till now would the best and latest of them have seemed trivial and partial in his eyes. And yet, considered apart from the personality and rapid development of their writer, these essays are profitable. If they solve no problems, if they open no new fields, if they add nothing to the sum or the statement of truth, they at least restate familiar facts and conditions with singular clearness and force, delightful freshness, unerring selection and complete sanity. And not the least of the pleasure they give is the melancholy contemplation of a mind that had it survived would inevitably have been in front of the literary movement, the beginnings of which are already in the opinion of many at hand. We quote as an example of Frank Norris's character and quality as a man of letters the final paragraphs of his essay on the responsibilities of the novelist: The Pulpit, the Press and the Novel, these indisputably are the great moulders of public morals to day. But the Pulpit speaks but once a week, the Press is read with lightning haste and the morning news is waste paper by noon. But the Novel goes into the home to stay. It is read word for word, is talked about, discussed, its influence penetrates every chink and corner of the family. Yet novelists are not found wanting who write for money. I do not think this is an unfounded accusation. I do not think it asking too much of credulity. This would not matter if they wrote the Truth. But these gentlemen who are in literature for their own pocket every time have discovered that for the moment the People have confounded the Wrong with the Right and prefer that which is a lie to that which is true. Very well, then say these gentlemen, If they want a lie they shall have it and they give the People a lie in return for royalties. *The Book Buyer*, A Monthly Review of American and Foreign Literature, Volume 27.

The Theory and Practice of American Literary Naturalism Donald Pizer, 1993. In his first book devoted exclusively to

naturalism Donald Pizer brings together thirteen essays and four reviews written over a thirty year period that in their entirety constitute a full scale interpretation of the basic character and historical shape of naturalism in America The essays fall into three groups Some deal with the full range of American naturalism from the 1590s to the late twentieth century and some are confined either to the 1890s or to the twentieth century In addition to the essays an introduction in which Pizer recounts the development of his interest in American naturalism reviews of recent studies of naturalism and a selected bibliography contribute to an understanding of Pizer s interpretation of the movement One of the recurrent themes in the essays is that the interpretation of American naturalism has been hindered by the common view that the movement is characterized by a commitment to Emile Zola s deterministic beliefs and that naturalistic novels are thus inevitably crude and simplistic both in theme and method Rather than accept this notion Pizer insists that naturalistic novels be read closely not for their success or failure in rendering obvious deterministic beliefs but rather for what actually does occur within the dynamic play of theme and form within the work Adopting this method Pizer finds that naturalistic fiction often reveals a complex and suggestive mix of older humanistic faiths and more recent doubts about human volition and that it renders this vital thematic ambivalence in increasingly sophisticated forms as the movement matures In addition Pizer demonstrates that American naturalism cannot be viewed monolithically as a school with a common body of belief and value Rather each generation of American naturalists as well as major figures within each generation has responded to threads within the naturalistic impulse in strikingly distinctive ways And it is indeed this absence of a rigid doctrinal core and the openness of the movement to individual variation that are responsible for the remarkable vitality and longevity of the movement Because the essays have their origin in efforts to describe the general characteristics of American naturalism rather than in a desire to cover the field fully some authors and works are discussed several times though from different angles and some referred to only briefly or not at all But the essays as a collection are complete in the sense that they comprise an interpretation of American naturalism both in its various phases and as a whole Those authors whose works receive substantial discussion include Stephen Crane Frank Norris Theodore Dreiser Edith Wharton James T Farrell Norman Mailer Joyce Carol Oates and William Kennedy Of special interest is Pizer s essay on Ironweed which appears here for the first time

The Gospel of Wealth in the American Novel (Routledge Revivals) Arun Mukherjee, 2015-08-11 Business and the businessman have had a fundamental place in American society since the inception of the nation This tenet the gospel of wealth is a central concern in the novels of Theodore Dreiser and his contemporaries First published in 1987 this study sets this group of writers in their historical context and shows how they elaborated the idea of wealth as an object of quasi religious quest What had previously been associated with disease and darkness avarice and dishonour now came to emblematised the virtues of thrift prudence and diligence The underlying argument is that the dominant group of a society legitimises its power through the appropriation of the vocabulary of religion and the American business leaders were successful in doing this both in their own practice and through the more insidious medium of art A detailed analysis this reissue will be of particular value to students of American literature with an interest in the relationship between linguistic symbols and social order and historical attitudes towards wealth in literature
