Change and Reform in Medicine and Health Education in China - A Teaching Staffs Perspective Xiangyun

Du, Jiannong Shi, Yuhong Zhao, 2022-09-01 In recent decades medicine and health education has been challenged worldwide by changes in its profession. Being a doctor nowadays encompasses much more than having biomedical knowledge and includes interdisciplinary skills related to societal needs, communication skills, and ethical consideration among other things. In order to provide these skills and competences, many medical schools are implementing changes in different aspects of the education. These changes are also occurring in China. In the past twenty years, medical education in China has initiated a series of reforms. The current reforms have mainly been led by the Ministry of Education and Ministry of Health. These initial actions have evidenced both positive and negative attitudes and reactions. Is there a need to make further reforms and changes? If so, in what aspects? This book documents a national investigation of attitudes from teaching staff on the reforms and changes. Nearly 1800 teaching staff from 23 medical universities participated in this investigation. The results suggest that sustainable educational change demands not only supports from policy makers and leaderships but also active participation from teaching staff. In order for the implementation of reforms and changes to be successful, two factors are essential from the teaching staff's perspective. First, it is important for teaching staff to gain a deep understanding of educational reform and change, and second, they should develop appropriate skills to be able to conduct the reforms through their teaching practice. To provide these two factors, institutional facilitation is necessary and crucial.

The Messianic View of the Kingdom of God Joseph O. Esin, 2011-10-17 The Messianic View of the Kingdom of God offers persevering readers an assurance of secured miraculous healing, forgiveness, rewarding prayers, repentance, peace, and unity in the kingdom of God under the leadership of Jesus Christ, our divine shepherd. It also presents an organized and systematic paradigm of the analysis of St. Luke's theology and all the New and Old Testament biblical prophecies about the restoration of the promised covenant. The book belongs in the libraries of clergies and seminarians in departments of theology, philosophy, and moral studies, and in the hands of individuals seeking in-depth knowledge of God's promise to all nations. The book also affirms that the mission of Jesus Christ as the heavenly leader is to restore an unwavering benchmark for peace and unity to those who invest their trust in God. The restored covenant will put an end to all intentional and inadvertent disobedience to the teachings of Jesus Christ. The goal of The Messianic View of the Kingdom of God is to enhance an enduring end to defiant human conduct and allow an opportunity to receive the glory that is guaranteed to everyone by the Almighty God through His son, Jesus Christ, the fountain of a secured irreversible healing, peace, and unity for everyone, all nations, and the world communities. The majority of setbacks and temptations should be viewed as a consecrated revelation from God to redirect our paths in life, purify our bodies and souls, and reinforce our trust and faith in Him, and to serve as a divine corridor to bring everyone closer to the promised kingdom of God under the leadership of Jesus Christ.
