Ibrahim Zabad, 2017-03-27 This is a comprehensive survey of minorities in the Middle East with a special focus on the post Arab Spring era. Minority communities in the Middle East are the most susceptible to the turbulence engulfing the region; the majority may suffer physical violence and socioeconomic loss but minorities could potentially vanish. Instead of ushering in democracy and inclusive politics, the revolutionary upheavals have prompted chaos and fear and reinforced the resurgence of Islamic fundamentalism throughout the region. Zabad uses historical sources as well as first hand interviews to vividly describe the current status of minorities in the Middle East, explaining attitudes towards the revolutionary upheavals as well as the various strategies they used to avail themselves of the opportunities presented and to confront the risks posed. The question of ethnic sectarian and religious minorities is situated in the context of the broader history of the region in order to explain the underlying institutional and ideological factors that caused their predicament and problematized their relationship with the majority. The book provides a rich trove of information and insights generated from ten case studies that covered the Shia in Saudi Arabia, Bahrain, Lebanon, and Egypt; the Druze, the Alawites, Christians, and Kurds in Syria; the Copts in Egypt; and the Zaydis in Yemen.

The Clash of Empires and the Rise of Kurdish Proto-Nationalism, 1905-1926 Mehrdad Kia, 2023-11-19 This book focuses on the rise of Kurdish nationalism in northwestern Iran in the context of the emergence of the Kurdish leader Ismail Agha Simko, who organized a movement to establish a Kurdish state between 1918 and 1922. The rise of Simko is analyzed in the historical framework of the collapse of the Russian and Ottoman empires as well as the disappearance of Iranian governmental authority in various provinces of the country during and after the end of the First World War. The book also investigates the impact of Iranian, Turkish, and Assyrian nationalisms on Simko and his movement. Drawing upon original documents, the author provides an in-depth analysis of the political and socioeconomic causes for the rise of proto-Kurdish nationalism in northwestern Iran during and after the Great War.

The Kurdish Question Revisited Gareth R. V. Stansfield, Mohammed Shareef, 2017 The Kurds, once marginal in the study of the Middle East and secondary in its international relations, have moved to centre stage in recent years. In Turkey, where the Kurdish question is an issue of national significance, and in Iraq, where the gains made by the Kurdistan Regional Government have allowed it to impose its authority, moves are afoot to solve the Kurdish Question once and for all. The picture is less positive in Syria, where the Kurds have borne the brunt of the Islamic State's onslaught, and in Iran, where they struggle to express their cultural distinctiveness and suffer disproportionately at the hands of the Islamic Republic's security apparatus. Yet the situations in both countries remain in flux, affected by developments in Iraq and Turkey in a manner that suggests we may have to revise the notion of the Kurds being forever divided by the boundaries of the Middle East and subsumed into the state projects of other nations. The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.

Iraqi Kurdistan, the PKK and International Relations Hannes Černý, 2017-07-28 Due to its primacy in explaining issues of war and peace in the international arena the discipline of International Relations IR looms large in analyses of and responses to ethnic conflict in academia politics and popular media in particular with respect to contemporary conflicts in the Middle East Grounded in constitutive theory this book challenges how ethnic/ethno-nationalist conflict is represented in explanatory IR by deconstructing its most prominent state-centric models frameworks and analytical concepts As much a critique of contemporary scholarship on Kurdish ethno-nationalism as a detailed analysis of the most prominent Kurdish ethno-nationalist actors the book provides the first in-depth investigation into the relations between the PKK and the main Iraqi Kurdish political parties from the 1980s to the present It situates this inquiry within the wider context of the ambiguous political status of the Kurdistan Region of Iraq its relations with Turkey and the role Kurdish parties and insurgencies play in the war against ISIS in Iraq and Syria Appreciating these complex dynamics and how they are portrayed in Western scholarship is essential for understanding current developments in the Iraqi and Syrian theatres of war and for making sense of discussions about a potential independent Kurdish state to emerge in Iraq Iraqi Kurdistan provides a comprehensive and

critical discussion of the state centric and essentialising epistemologies ontologies and methodologies of the three main paradigms of explanatory IR as well as their analytical models and frameworks on ethnic identity and conflict in the Middle East and beyond It will therefore be a valuable resource for anyone studying ethnicity and nationalism International Relations or Middle East Politics

The Politics of Culture in Turkey, Greece & Cyprus Leonidas Karakatsanis,Nikolaos Papadogiannis,2017-03-27 Performing a political identity usually involves more than just casting a vote For Left wingers in Turkey Greece and Cyprus countries that emerged as the only non socialist constituents of South eastern Europe after WWII political preference meant immersion to distinct ways of life to cultures in times of dictatorship or persecution the desire to find alternative ways to express themselves gave content to these cultures In times of political normality it was the echoes of such memories of precarity and loss that took the lead This book explores the intersection between the politics and cultures of the Left since the sixties in Turkey Greece and Cyprus With the use of 12 case studies the contributors expose the moments in which the Left has been claimed and performed not only through political manifestos and traditional political boundaries but also through corporeal acts discursive practices and affective encounters These are all transformed into distinct modalities of everyday life and conduct which are commemorated narrated or sung versed painted or captured in photographic images and on reels of tape By focusing on culture and performance this book highlights the complex link between nationalism and internationalism in left

Policing Iraq
Jesse Wozniak, 2021-03-09 Policing Iraq chronicles the efforts of the Kurdistan Regional Government of Iraq to rebuild their police force and criminal justice system in the wake of the US invasion Jesse S G Wozniak conducted ethnographic research during multiple stays in Iraqi Kurdistan observing such signpost moments as the Arab Spring the official withdrawal of coalition forces the rise of the Islamic State and the return of US forces By investigating the day to day reality of reconstructing a police force during active hostilities Wozniak demonstrates how police are integral to the modern state's ability to effectively rule and how the failure to recognize this directly contributed to the destabilization of Iraq and the rise of the Islamic State The reconstruction process ignored established practices and scientific knowledge instead opting to create a facade of legitimacy masking a police force characterized by low pay poor recruits and a training regimen wholly unsuited to a constitutional democracy Ultimately Wozniak argues the United States never intended to build a democratic state but rather to develop a dependent client to serve its neoimperial interests
