Central Office Library, 1972 **Lamp**, 1899 *The Power Within* Eric Butterworth, 1969 One of the greatest challenges facing mankind today is the need to find a faith that will serve modern man and his problems The lack of such a faith could explain why so many people are becoming drop outs from Christianity Eric Butterworth's book is a result of the author's personal search for a practical day to day Christianity The greatest discovery of all time he says in *The Power Within* was that made by Jesus of the divine dimension in every human being Christianity says the author has emphasised the divinity of Jesus but Jesus Himself taught the divinity of man His most vital mission on earth was to help man discovers this The entire Gospel message deals with techniques for unfolding this divine potential and Eric Butterworth's book in its close relationship to the teaching of Jesus is thus a valuable self help book for modern men and women who are seeking a truly full way of life Like Emmet Fox the author asks What did Jesus really teach and the direct and simple answers he presents should bring great comfort to many who have forgotten even to ask the question *A Sherwood Bonner*

Sampler, 1869-1884 Katherine Sherwood Bonner McDowell, 2000 This book which adds significantly to the current resurgence of interest in Bonner brings back into print much of the author's best writing and will acquaint modern readers with her astute and witty observations about America's centennial era **BOOK JACKET** Congressional Primary Elections

Robert G. Boatright, 2014-08-21 Congressional primaries are increasingly being blamed for polarization and gridlock in Congress Most American states adopted congressional primaries during the first decades of the 20th century as a means of breaking the hold of political bosses on the nomination of candidates Yet now many contend that primaries have become a means by which the most dedicated party activists choose candidates unrepresentative of the electorate and so general election voters are forced to choose between two ideologically extreme candidates Consequently there have been recent instances in both parties where nominees were chosen who were clearly not preferred by party leaders and who arguably lost elections that their parties should have won This book is the first to focus solely upon congressional primary elections and to do so for a student readership Boatright organizes his text around the contention that there are important differences between types of primaries and these differences prevent us from making blanket statements about primary competition He

focuses on explanations of two sources of difference differences in electoral structure and differences brought about by the presence or absence of an incumbent seeking reelection The first three chapters introduce these differences explore how they came to exist and outline some of the strategic considerations for candidates parties interest groups and voters in primary elections The subsequent four chapters explore different types of primary elections and the final chapter evaluates actual and proposed primary reforms Congressional Primary Elections is the first book to provide a history and analysis of congressional primary elections and will serve as a crucial part of courses on political parties and campaigns and elections The book gives students the tools for understanding arguments for and against the reform of primary elections and for understanding the differences between types of primaries [Current Catalog](#) National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 *A Critical Dictionary of English Literature, and British and American Authors, Living and Deceased, from the Earliest Accounts to the Middle of the Nineteenth Century* Samuel Austin Allibone,1871 [United States Law Review](#) ,1868 *Kidney in Systemic Diseases* S.
