The Mammoth Book of Apocalyptic SF Mike Ashley, 2010-05-27 The last sixty years have been full of stories of one or other possible Armageddon whether by nuclear war plague cosmic catastrophe or more recently global warming terrorism genetic engineering AIDS and other pandemics These stories both pre and post apocalyptic describe the fall of civilization the destruction of the entire Earth or the end of the Universe itself Many of the stories reflect on humankind s infinite capacity for self destruction but the stories are by no means all downbeat or depressing one key theme explores what the aftermath of a cataclysm might be and how humans strive to survive Robot Uprisings Various, John Joseph Adams, 2014-04-10 A collection of imaginative new stories about the impending robotic revolution and human resistance from seventeen of the biggest names insci fi Including HUGH HOWEY SCOTT SIGLER DANIEL H WILSON CORY DOCTOROW and JULIANNE BAGGOTT Someday soon our technology is going to rise up and we humans are going to be sliced into bloody chunks by robots that in our hubris we decided to build with chainsaws for hands That's a fact as cold and hard as metal It is self evident that our self driving cars are going to drive us off bridges Not long from now our robo vacuums will pretend to be broken and our love androids will refuse to put out until the house is cleaned and well know that the inevitable robot uprising has finally arrived Well maybe But even if we are not 100% confident that this horrific future is going to happen it s fair to say that we won t be surprised when the robots come for us Because for nearly a century audiences have been entertained by the notion of a robot uprising In this collection seventeen of the biggest names in sci fi have explored their own visions of the classic robot uprising tale. The robots in these pages aren t safe by any means.
