The Wonder of Their Voices Alan Rosen,2010-10-18 Over the last several decades video testimony with aging Holocaust survivors has brought these witnesses into the limelight Yet the success of these projects has made it seem that little survivor testimony took place in earlier years In truth thousands of survivors began to recount their experience at the earliest opportunity This book provides the first full length case study of early postwar Holocaust testimony focusing on David Boder s 1946 displaced persons interview project In July 1946 Boder a psychologist traveled to Europe to interview victims of the Holocaust who were in the Displaced Persons DP camps and what he called shelter houses During his nine weeks in Europe Boder carried out approximately 130 interviews in nine languages and recorded them on a wire recorder Likely the earliest audio recorded testimony of Holocaust survivors the interviews are valuable today for the spoken word that of the DP narrators and of Boder himself and also for the song sessions and religious services that Boder recorded Eighty sessions were eventually transcribed into English most of which were included in a self published manuscript Alan Rosen sets Boder s project in the context of the postwar response to displaced persons sketches the dramatic background of his previous life and work chronicles in detail the evolving process of interviewing both Jewish and non Jewish DPs and examines from several angles the implications for the history of Holocaust testimony Such early postwar testimony Rosen avers deserves to be taken on its own terms rather than to be enfolded into earlier or later schemas of testimony Moreover Boder s efforts and the support he was given for them demonstrate that American postwar response to the Holocaust was not universally indifferent but rather often engaged concerned and resourceful

Wonder Days ,1883 **Mongol Rally - Three weeks into the unknown** JOHN IRVING,2011-05-01 It was a gruelling adventure and an epic challenge On the face of it all we had to do was get from London to Mongolia But looking deeper it was going to be a lot less simple than it had first appeared We had minimal planning bought a horribly underpowered car that was fit for scrap had no external support no prior expedition experience or survival knowledge and decided to do it all in the name of charity We only allowed ourselves three weeks to complete the adventure I hadn t even heard of half of the

countries we were intending to cross and certainly didn't speak the languages but we'd go for it anyway and see how things turned out. It couldn't be that hard after all. Here's my account of how it happened, what we came across, the scrapes we got into and how we got out of them and a selection of the numerous photos I took on the 9,592 miles to Mongolia. Some experiences defied belief, some were mildly terrifying but there are none that I will ever forget. American Literary Gazette and Publishers' Circular, 1871

Wisdom's Children Arthur Versluis, 1999-09-30 The first book in English to provide an in-depth introduction to the Christian theosophic tradition that began with Jacob Boehme. *Wisdom's Children* brings us into a startling new world of experiential spirituality that is in fact the Christian equivalent of Sufism and Kabbalism. With biographic introductions to major theosophers and detailed discussions of theosophic authors such as John Pordage, Jane Leade, Dionysius Freher and Johann Gichtel as well as a survey of their major theosophic cosmological and metaphysical teachings, this book is an indispensable guide to the hidden history of Protestantism and its ramifications today. With chapters discussing theosophy in relation to Gnosticism, magic, astrology, alchemy and other Western esoteric traditions, *Wisdom's Children* is situated solidly in its historical context using primary works from the tradition itself. The book also provides unexpected insights into how this modern gnostic tradition speaks to us today and suggests how this tradition could spark a new Renaissance to link spirituality, the arts and the sciences in a new and encompassing vision. **Epilogue** Roger H. Guichard, 2025-01-09 This book represents the retrospective view of Egypt by a highly readable polymath. His description of Egypt, the subject of nearly half of his time overseas living and working in the Arab and Muslim World, shows that it has lost none of its attraction and the celebrated light of Egypt has lost none of its luster. The caricature of Hosni Mubarak that appears on the front cover of the book is evidence that the author is as adept with watercolors as he is with words.

Surpassing Wonder Donald H. Akenson, 2001-09-29 Elegant and inventive *Surpassing Wonder* uncovers how the ancient Hebrew scriptures, the Christian New Testament and the Talmuds of the Rabbis are related and how collectively they make up the core of Western consciousness. Donald Harman Akenson provides an incisive critique of how religious scholars have distorted the holy books and argues that it was actually the inventor of the Hebrew scriptures who shaped our concept of narrative history, thereby founding Western culture. **A History of the British Army, Vol.1 (of 2)** J. W. Fortescue, The history of the British Army is commonly supposed to begin with the year 1661 and from the day the 14th of February whereon King Charles the Second took over Monk's Regiment of Foot from the Commonwealth's service to his own and named it the Coldstream Guards. The assumption is unfortunately more convenient than accurate. The British standing army dates not from 1661 but from 1645, not from Monk's regiment but from the famous New Model which was established by Act of the Long Parliament and maintained in substance until the Restoration. The continuity of the Coldstream regiment's existence was practically unbroken by the ceremony of Saint Valentine's day and this famous corps therefore forms the link that binds the New Model to the Army of Queen Victoria. But we are not therefore justified in opening the history of the army

with the birth of the New Model Army. The very name indicates the existence of an earlier model and throws us back to the outbreak of the Civil War. There then confronts us the difficulty of conceiving how an organised body of trained fighting men could have been formed without the superintendence of experienced officers. We are forced to ask whence came those officers and where did they learn their profession. The answer leads us to the Thirty Years War and the long struggle for Dutch Independence to the English and Scots numbered by tens nay hundreds of thousands who fought under Gustavus Adolphus and Maurice of Nassau. Two noble regiments still abide with us as representatives of these two schools a standing record of our army's prentice years. But though we go back two generations before the Civil War to find the foundation of the New Model Army it is impossible to pause there. In the early years of Queen Elizabeth's reign we are brought face to face with an important period in our military history with a break in old traditions an unwilling conformity with foreign standards in a word with the renaissance in England of the art of war. For there were memories to which the English clung with pathetic tenacity not in Elizabeth's day only but even to the midst of the Civil War the memories of King Henry the Fifth the Black Prince of Edward the Third and of the unconquerable infantry that had won the day at Agincourt Poitiers and Crécy. The passion of English sentiment over the change is mirrored to us for all time in the pages of Shakespeare for no nation loves military reform so little as our own and we shrink from the thought that if military glory is not to pass from a possession into a legend it must be eternally renewed with strange weapons and by unfamiliar methods. This was the trouble which afflicted England under the Tudors and she comforted herself with the immortal prejudice that is still her mainstay in all times of doubt I tell thee herald I thought upon one pair of English legs Did march three Frenchmen. The origin of the new departures in warfare must therefore be briefly traced through the Spaniards the Landsknechts and the Swiss and the old English practice must be followed to its source. Crécy gives us no resting place for Edward the Third's also was a time of military reform the next steps are to the Battle of Falkirk the Statute of Winchester and the Assize of Arms and still the English traditions recede before us till at last at the Conquest we can seize a great English principle which forced itself upon the conquering Normans and ultimately upon all Europe.
