highlighting prewar experiments with coeducation that belied objections that the practice was a foreign imposition and therefore unnatural for Japanese culture It also illustrates a remarkable degree of continuity between prewar and postwar models of femininity arguing that Occupation era guarantees of equal educational opportunity were ultimately repurposed toward a gendered division of labor that underwrote the postwar project of economic recovery Finally it excavates discourses of gender and sexuality underlying the moral panic surrounding coeducation to demonstrate that claims of rampant sexual deviance and other concerns were employed as disciplinary mechanisms to reinforce an ideology of harmonious gender complementarity and to dissuade women from pursuing conventionally masculine prerogatives **Hard-to-teach Biology**

Concepts Susan Koba, Anne Tweed, 2009 The book is not a prescribed set of lessons plans Rather it presents a framework for lesson planning shares appropriate approaches for developing student understanding and provides opportunities to reflect and apply those approaches to the five hard to teach topics Managing the Adolescent Classroom Glenda Beamon

Crawford, 2004-04-29 Uncover the secrets of teachers who are recognized as outstanding classroom managers Through fourteen case studies of exemplary teachers Crawford showcases adolescent classroom management at its best Teachers can draw from this rich store of individual tips secrets and procedures and adapt these management solutions immediately Along with these variations on classic elements of success Crawford also provides many new entry points for new and experienced teachers to improve their own management Reflective chapter questions and discussion prompts make this a productive resource for study groups and mentors as well as classroom teachers Managing the Adolescent Classroom demonstrates how to triangulate great management around three essential factors Physical leveraging time space and a structured environment Affective strategies to promote positive personal and interpersonal development Cognitive use of instructional pace and engagement to motivate behavior and commitment to learning By successfully managing the physical social emotional and academic dimensions of the classroom environment teachers can create an essential foundation for a learning community of young adolescents that will promote relationships belonging and achievement **Race, Whiteness, and Education** Zeus

Leonardo, 2009-05-12 In the colorblind era of Post Civil Rights America race is often wrongly thought to be irrelevant or at best a problem of racist individuals rather than a systemic condition to be confronted Race Whiteness and Education interrupts this dangerous assumption by reaffirming a critical appreciation of the central role that race and racism still play in schools and society Author Zeus Leonardo s conceptual engagement of race and whiteness asks questions about its origins its maintenance and envisages its future This book does not simply rehearse exhausted ideas on the relationship among race class and education but instead offers new ways of understanding how multiple social relations interact with one another and of their impact in thinking about a more genuine sense of multiculturalism By asking fundamental questions about whiteness in schools and society Race Whiteness and Education goes to the heart of race relations and the common sense understandings that sustain it thus painting a clearer picture of the changing face of racism **How People Learn** National

Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Developments in the Science of Learning with additional material from the Committee on Learning Research and Educational Practice, 2000-08-11 First released in the Spring of 1999 How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice now making a real connection between classroom activities and learning behavior This edition includes far reaching suggestions for research that could increase the impact that classroom teaching has on actual learning Like the original edition this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions When do infants begin to learn How do experts learn and how is this different from non experts What can teachers and schools do with curricula classroom settings and teaching methods to help children learn most effectively New evidence from many branches of science has significantly added to our understanding of what it means to know from the neural processes that occur during learning to the influence of culture on what people see and absorb How People Learn examines these findings and their implications for what we teach how we teach it and how we assess what our children learn The book uses exemplary teaching to illustrate how approaches based on what we now know result in in depth learning This new knowledge calls into question concepts and practices firmly entrenched in our current education system Topics include How learning actually changes the physical structure of the brain How existing knowledge affects what people notice and how they learn What the thought processes of experts tell us about how to teach The amazing learning potential of infants The relationship of classroom learning and everyday settings of community and workplace Learning needs and opportunities for teachers A realistic look at the role of technology in education *Intersectionality and "Race" in Education* Kalwant Bhopal, John Preston, 2012-01-25 Education is a controversial subject in which difficult and contested discourses are the norm Individuals in education experience multiple inequalities and have diverse identifications that cannot necessarily be captured by one theoretical perspective alone This edited collection draws on empirical and theoretical research to examine the intersections of race gender and class alongside other aspects of personhood within education Contributors from the fields of education and sociology seek to locate the dimensions of difference and identity within recent theoretical discourses such as Critical Race Theory Judith Butler and queer theory post structural approaches and multicultural models as they analyze whiteness and the education experience of minority ethnic groups By combining a mix of intellectually rigorous accessible and controversial chapters this book presents a distinctive and engaging voice one that seeks to broaden the understanding of education research beyond the confines of the education sphere into an arena of sociological and cultural discourse *Education for All* Robert E. Slavin, 1996-01-01 This work is a collection of previously published articles by Robert Slavin The articles trace the evolution over a quarter century of the powerful idea that given well developed rigorously evaluated methods and materials teachers can succeed with virtually all children **Theory and Practice of Technology-Based Music**

Instruction Jay Dorfman, 2013-05-30 Based on educational theory and on recognized music teaching methods Theory and Practice of Technology Based Music Instruction develops a framework for examining music teaching that uses technology to introduce reinforce and assess skills and concepts The framework guides in depth discussions about theoretical and philosophical foundations of technology based music instruction TBMI materials for teaching teaching behaviors and assessment of student work teacher work and fit of technology into the music program The book includes examples of TBMI lessons from real teachers and analyses of the successful and developing parts of these lessons The book also addresses issues of accountability and standards recommendations for professional development and the future of the field embodied in emerging technologies alternative ensembles and social issues It will be a key volume for teachers implementing new curricular offerings and for music teacher educators as a foundation for teaching with technology beyond a focus on software and hardware
