Packer, 2015-06-11 The Roman Forum was in many ways the heart of the Roman Empire Today the Forum exists in a fragmentary state having been destroyed and plundered by barbarians aristocrats citizens and priests over the past two millennia Enough remains however for archaeologists to reconstruct its spectacular buildings and monuments This richly illustrated volume provides an architectural history of the central section of the Roman Forum during the Empire 31 BCE 476 CE from the Temple of Julius Caesar to the monuments on the slope of the Capitoline hill Bringing together state of the art technology in architectural illustration and the expertise of a prominent Roman archaeologist this book offers a unique reconstruction of the Forum providing architectural history a summary of each building s excavation and research scaled digital plans elevations and reconstructed aerial images that not only shed light on the Forum s history but vividly bring it to life With this book scholars students architects and artists will be able to visualize for the first time since antiquity the character design and appearance of the famous heart of ancient Rome      *Death and Tenses* Neil Kenny, 2015-12-17 In what tense should we refer to the dead The question has long been asked from Cicero to Julian Barnes Answering it is partly a matter of grammar and stylistic convention But the hesitation annoyance and even distress that can be caused by the wrong tense suggests that more may be at stake our very relation to the dead This book the first to test that hypothesis investigates how tenses were used in sixteenth and early seventeenth century France especially in French but also in Latin to refer to dead friends lovers family members enemies colleagues writers officials kings and queens of recent times and also to those who had died long before whether Christ the saints or the ancient Greeks and Romans who posthumously filled the minds of Renaissance humanists Did tenses refer to the dead in ways that contributed to granting them differing degrees of presence and absence Did tenses

communicate dimensions of posthumous presence and absence that partly eluded more concept based affirmations The investigation ranges from funerary and devotional writing to Eucharistic theology from poetry to humanist paratexts from Rabelais s prose fiction to Montaigne s Essais Primarily a work of literary and cultural history it also draws on early modern grammatical thought and on modern linguistics with its concept of aspect and its questioning of tense while arguing that neither can fully explain the phenomena studied The book briefly compares early modern usage with tendencies in modern French and English in the West asking whether changes in belief about posthumous survival have been accompanied by changes in tense use
