*Medical Diagnostics II* Waldemar Wójcik,Sergii Pavlov,Maksat Kalimoldayev,2019-02-13 For many centuries mankind has  
tried to learn about his health Initially during the pre technological period he could only rely on his senses Then there were  
simple tools to help the senses The breakthrough turned out to be the discovery of X rays which gave insight into the human  
body Contemporary medical diagnostics are increasingly supported by information technology which for example offers a  
very thorough analysis of the tissue image or the pathology differentiation It also offers possibilities for very early preventive

diagnosis Under the influence of information technology traditional diagnostic techniques and new ones are changing More and more often the same methods can be used for both medical and technical diagnostics In addition methodologies are developed that are inspired by the functioning of living organisms Information Technology in Medical Diagnostics II is the second volume in a series showing the latest advances in information technologies directly or indirectly applied to medical diagnostics Unlike the previous book this volume does not contain closed chapters but rather extended versions of presentations made during two conferences XLVIII International Scientific and Practical Conference Application of Lasers in Medicine and Biology Kharkov Ukraine and the International Scientific Internet conference Computer graphics and image processing Vinnitsa Ukraine both held in May 2018 Information Technology in Medical Diagnostics II links technological issues to medical and biological issues and will be valuable to academics and professionals interested in medical diagnostics and IT
