Family Life in Britain, 1650-1910 Carol Beardmore, Cara Dobbing, Steven King, 2019-04-03 This book explores the ways that families were formed and re formed and held together and fractured in Britain from the sixteenth to twentieth century The chapters build upon the argument developed in the 1990s and 2000s that the nuclear family form the bedrock of understandings of the structure and function of family and kinship units provides a wholly inadequate lens through which to view the British family Instead the volume's contributors point to families and households with porous boundaries an endless capacity to reconstitute themselves and an essential fluidity to both the form of families and the family and kinship relationships that stood in the background This book

offers a re reading and reconsideration of the existing pillars of family history in Britain It examines areas such as Scottish kinship patterns work patterns of kin in Post Office families stepfamily relations the role of family in managing lunatic patients and the fluidity associated with a range of professional families in the nineteenth century Chapter 8 of this book is available open access under a CC BY 4 0 license at link.springer.com

Irish and Scottish Encounters with Indigenous Peoples Graeme Morton, David A. Wilson, 2013-05-01 The expansion of the British Empire during the eighteenth and nineteenth centuries created the greatest mass migration in human history in which the Irish and Scots played a central complex and controversial role The essays in this volume explore the diverse encounters Irish and Scottish migrants had with Indigenous peoples in North America and Australasia The Irish and Scots were among the most active and enthusiastic participants in what one contributor describes as the greatest single period of land theft cultural pillage and casual genocide in world history At the same time some settlers attempted to understand Indigenous society rather than destroy it while others incorporated a romanticized view of Natives into a radical critique of European society and others still empathized with Natives as fellow victims of imperialism These essays investigate the extent to which the condition of being Irish and Scottish affected settlers attitudes to Indigenous peoples and examine the political social religious cultural and economic dimensions of their interactions Presenting a variety of viewpoints the editors reach the provocative conclusion that the Scottish and Irish origins of settlers were less important in determining attitudes and behaviour than were the specific circumstances in which those settlers found themselves at different times and places in North America Australia and New Zealand Contributors include Donald Harman Akenson Queen's John Eastlake College Cork Marjory Harper Aberdeen Andrew Hinson Toronto Michele Holmgren Mount Royal Kevin Hutchings Northern British Columbia Anne Lederman Royal Conservatory of Music Patricia A McCormack Alberta Mark G McGowan Toronto Ann McGrath Australian National Cian T McMahon Nevada Graeme Morton Guelph Michael Newton Xavier P draig Siadhail Saint Mary's Brad Patterson Victoria University of Wellington Beverly Soloway Lakehead and David A Wilson Toronto

Migrants of the British diaspora since the 1960s A. James Hammerton, 2017-07-21 This is the first social history to explore experiences of British emigrants from the peak years of the 1960s to the emigration resurgence of the turn of the twentieth century It explores migrant experiences in Australia Canada and New Zealand alongside other countries The book charts the gradual reinvention of the British diaspora from a postwar migration of austerity to a modern migration of prosperity It offers a different way of writing migration history based on life histories but exploring mentalities as well as experiences against a setting of deep social and economic change Key moments are the 1970s loss of Britons privilege in Commonwealth destination countries Thatcher's refugees in the 1980s and shifting attitudes to cosmopolitanism and global citizenship by the 1990s It charts a long process of change from the 1960s to patterns of discretionary and nomadic migration which became more common practice from the end of the twentieth century
