Armed Forces

Robert Eberwein,2007-06-13 In war films the portrayal of deep friendships between men is commonplace Given the sexually anxious nature of the American imagination such bonds are often interpreted as carrying a homoerotic subtext In Armed Forces Robert Eberwein argues that an expanded conception of masculinity and sexuality is necessary in order to understand more fully the intricacy of these intense and emotional human relationships Drawing on a range of examples from silent films such as What Price Glory and Wings to sound era works like The Deer Hunter Platoon Three Kings and Pearl Harbor he shows how close readings of war films particularly in relation to their cultural contexts demonstrate that depictions of heterosexual love including those in romantic triangles actually help to define and clarify the nonsexual nature of male love The book also explores the problematic aspects of masculinity and sexuality when threatened by wounds as in The Best Years of Our Lives and considers the complex and persistent analogy between weapons and the male body as in Full Metal Jacket and Saving Private Ryan
