Computational Methods for Crashworthiness Workshop on Computational Methods for Crashworthiness, 1993 **The Road to Safwan** Stephen Alan Bourque, John W. Burdan, 2007 The Road to Safwan is a complete history of the 1st Infantry Divisions cavalry unit fighting in Operation Desert Storm Stephen A Bourque and John W Burdan III served in the 1st Infantry Bourque in Division Headquarters Burdan as the Operations Officer of the 1st Squadron 4th Cavalry Based on extensive interviews and primary sources Bourque and Burdan provide the most in depth coverage to date of a battalion level

unit in the 1991 war showing how the unit deployed went into combat and adapted to changing circumstances The authors describe how the officers and men moved from the routine of cold war training to leading the Big Red One in battle through the Iraqi defenses and against the Iraqi Republican Guard The 1st Squadron 4th Cavalry participated in the 1st Brigade attack on G Day the large tank battle for Objective Norfolk the cutting of Basra Road and the capture of Safwan Airfield the site where General H Norman Schwartzkopf conducted cease fire negotiations with the Iraqis The squadrons activities are placed squarely within the context of both division and corps activities which illustrates the fog of war the chain of command and the uncertainty of information affecting command decisions The Road to Safwan challenges the myth that technology won the 1991 Persian Gulf War Contrary to popular view it was a soldier s war not much different from previous conflicts in its general nature What was different was the quality and intensity of the unit s training which resulted repeatedly in successful engagements and objectives secured It is the story of the people not the machines which ultimately led this squadron to the small town of Safwan
