ICEL 2017 - Proceedings of the 12th International Conference on e-Learning Laurie O. Campbell, Richard Hartshorn, 2017 **Maheshvari: The Pandemic and Social Science Appro** ,2023-06-02 Undoubtedly Covid 19 caused major disruptions in several realms of human life Not least affected is higher education *Language and Institutional Identity in the Post-Apartheid South African Higher Education* Leketi Makalela, 2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping reproducing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education Drug-resistant Mycobacterium tuberculosis Ben Gold, Helena Ingrid Boshoff, Digby Warner, 2023-06-08

International Case Studies in Service Learning Enakshi Sengupta, Patrick Blessinger, 2022-11-16 Shedding light on how successfully service learning has been adopted to the existing curriculum and the emergence of a new breed of students who are aligned with the needs of the community and undertake collaborative work to solve real world issues Volume 47 is invaluable to both researchers teachers and scholars **Ordered Estates** Hartnack, Andrew M.C., 2016-07-31 There is a growing body of work on white farmers in Zimbabwe Yet the role played by white women so called farmers wives on commercial farms has been almost completely ignored if not forgotten For all the public role and overt power ascribed to white male farmers their wives played an equally important although often more subtle role in power and labour relations on white commercial farms This soft power took the form of maternalistic welfare initiatives such as clinics schools orphan programmes and women s clubs mostly overseen by a farmer s wife Before and after Zimbabwe s 1980 independence these played an important role in attracting and keeping farm labourers and governing their behaviour After independence they also became crucial to the way white farmers justified their continued ownership of most of Zimbabwe s prime farmland This book provides the first comprehensive analysis of the role that farm welfare initiatives played in Zimbabwe s agrarian history

Having assessed what implications such endeavours had for the position and well being of farmworkers before the onset of fast track land reform in the year 2000 Hartnack examines in vivid ethnographic detail the impact that the farm seizures had on the lives of farmworkers and the welfare programmes which had previously attempted to improve their lot

Theoretical and Empirical Studies on Cooperatives Andrew Emmanuel Okem,2016-06-29 The book outlines how cooperatives can be used as a tool for development and reconciliation in post conflict contexts This book also examines the successes and challenges for emerging and existing cooperatives in Africa while delivering both practical lessons and insights into the theory It presents completely new materials on the cooperative movement against a backdrop of increasing global recognition of the roles of cooperatives and collective action in socio economic development Readers are invited to consider how as an economic model that seeks to advance member collective interests cooperatives are invaluable tools for human economic and social development Social and human geographers find this a remarkably impactful contribution to the literature surrounding cooperatives in Africa and cooperative theory in general Policy experts and students also find the research informative and insightful

Race, Racism, and International Law Devon W. Carbado,Kimberlé Williams Crenshaw,Justin Desautels-Stein,Chantal Thomas,2025-08-19 What would it look like to place race at the center of international legal scholarship From its inception in the 70s and 80s critical race theory s target was the field of law revealing it to be a repository for racial power This particular critique of law was

explosive because of law's putatively apolitical status making it a unique site for an intellectual site in that has forever changed the way that race and racism are understood in American society Several decades later as indicators of populism and white nationalism spread across North America and Europe critical race theory remains markedly absent from discourses in global affairs and international law This volume opens the door for CRT to enter the international sphere Featuring contributions from 30 of today's leading scholars from around the world *Race Racism and International Law* explains how the concept of racial difference sits at the foundation of the legal political and social structures of hierarchy that shape the contemporary global order Helmed by four pioneering experts two in CRT and two in international law the volume's approach targets regimes of power and violence that implicate racism capitalism and colonialism This volume lays the groundwork for urgent and provocative new modes of critique and analysis

Illustrated Glossary of Southern African Architectural Terms, English-isiZulu Franco Frescura, Philisiwe Joyce Myeza, 2016 Since 1994 South Africa has undergone a steady erosion of its indigenous built environment with a concomitant loss of indigenous building technology and its specialised terminology This glossary is based on the premise that readers cannot understand the culture of a people unless they have a grasp of the nuances and hidden meanings of the language The authors bring together in one volume the terminologies that are used by southern Africa's rural builders The terminology used by indigenous builders is included here as well as the terminology used by subsequent colonial white settlers including buildings of the so called Cape Dutch English Georgian Victorian and Indian Traditions The text is set out in alphabetical order It comprises each term in its original language its translation where appropriate into isiZulu and its definition in English and isiZulu One of the strengths of *English isiZulu Glossary of Architectural Terms* is its visual component of accompanying sketches that expertly illustrate the terms This book is designed not only to assist in the teaching of architecture but also to aid others who are interested in the field Researchers and practitioners in disciplines such as anthropology archaeology culture studies and building science will find it a valuable addition to their libraries Series UKZN Bilingual Glossary Series Subject Architecture African Studies Anthropology Art History
