Collaboration in the Humanities James A. Inman,Cheryl Reed,Peter Sands,2003-10-03 This volume provides an informed
view of how information technology is shaping the contemporary humanities It specifically reflects five ideals humanities
scholars with all levels of access are doing important work with technology humanities scholars projects with technology
reflect significant diversity both across and within disciplinary bounds using information technology in the humanities is a
continuous conversation information technology offers new options for humanities education and just as collaboration
changes the nature of any project so does information technology change the nature of collaboration its speed character
methods and possible implementations The first to explore new and important ways for humanities scholars to collaborate
across disciplines via electronic media this book redefines electronic collaboration presents insightful models of student
collaboration provides important models of faculty collaboration with special emphasis on professional development and
offers a look at the future of electronic collaboration and the overall future of the humanities Featuring the voices of
humanities teacher scholars at all stages of their professional careers the chapters emphasize pedagogy outlining
contemporary issues and options Electronic Collaboration in the Humanities speaks directly to anyone involved with
interdisciplinary initiatives in colleges and universities such as writing across the curriculum and communication across the
curriculum programs and to specific populations within the humanities including literacy and technology language and
literature literacy studies professional writing and English education **Mergent Company Archives Manual** ,2007
