Joe Quinn Among the Rowdies Rochelle Llewelyn Nicholls,2014-10-01 A gentleman when the game was hard bitten played by rough and ready lads out to win whatever the cost Australia had few sporting heroes in the years preceding its federation in 1901 But before its 20th century Olympic trailblazers and Depression era icons such as Phar Lap and Don Bradman came an Australian sporting pioneer who was celebrated on the most glamorous stage in the world American major league baseball Joe Quinn s story has long been lost in the land of his birth This tale gallops from the deprivation of famine ravaged Ireland through colonial Australia to the raucous ballfields of 19th century America with their

unruly players and owners brawls and adulation and backroom betrayals Through 17 seasons in the major leagues Undertaker Joe Quinn earned his place among the colorful characters who pioneered the modern game of baseball as much for his ability to stand apart from their bad behavior as for his steadfastness on the field Meet Australia's first professional baseball player and manager whose willingness to have a go in the grand Australian tradition will live long in the minds of sports fans on both sides of the Pacific

Austerity Bites 10 Years On Mary O'Hara, 2024-09-17 Austerity has proven deadly Over the last decade the damage caused by austerity measures in the UK has had a long lasting and profound effect on many lives The first edition of *Austerity Bites* offered on the ground reportage of one of the most significantly regressive economic strategies of any post war government Over a year Mary O'Hara toured the UK to gauge the immediate impact and expectations of people affected and found many clinging to the hope that austerity cuts would not last long as the damage became increasingly apparent Alas this was not how things unfolded Instead much of the Welfare State had its vital support systems systematically undermined The public sector including the NHS is now on its knees Schools are buckling under multiple structural and budgetary pressures Councils even big ones are going broke Homelessness is rampant While Brexit the pandemic and war have no doubt impacted the economic health of the country previous austerity cuts left the UK less prepared to weather such extraordinary events With new commentary *Austerity Bites 10 Years On* assesses on the true scale of the damage these policies have inflicted on the country's most vulnerable groups public institutions and on the wider society It reflects on where we have been where we are now and what needs to happen next to undo the damage and avoid the same mistakes again

Higher Education at Risk Sandra Featherman, 2023-07-03 Sandra Featherman believes that colleges are in denial about the severity of the threats to the current model of higher education Based on her own experience

as a president as a trustee and as a board member who has worked in private and public universities and on interviews with the presidents of major institutions she offers both a trenchant analysis of those threats and clear prescriptions about the painful but necessary decisions that colleges need to make to ensure they remain viable accessible and affordable and deliver a high quality education Sandra Featherman considers higher education to be at a game changing moment When markets don't function well as is the case with today's college marketplace with offerings that cost too much and return too little it opens the door to new types of suppliers who offer new ways of providing what students are looking for particularly the increasing cohort of mature working students In the face of new competitors for profit education companies technology start ups and foreign universities vying for international students trustees and senior level administrators are generally stuck in a traditional ethos and with decision making processes unsuited to these times They know what used to work and find it easier to follow old ways than to make the difficult transition to new ways of delivering education She lays out a strategy that emphasizes the centrality of students and how to provide them with the most effective learning environment that is clear eyed about focusing on the core missions and abandoning practices that constrain or impede them and that requires constant self monitoring to learn from and act upon what works She offers a blueprint for redesigning institutions for paring away what is unnecessary and cost ineffective and for adopting the best technologies all in the service of developing meaningful degree programs at an affordable price and widening access for under represented groups She ranges over the implications of budget decisions accreditation and MOOCs addresses government regulation and tuition costs presents promising new models and concludes with 11 key recommendations that should be heeded by all higher education administrators and trustees
