NSF the National Research Council NRC established a committee to review the science objectives and implementation planning of the three NSF components United States Seismic Array USArray the Plate Boundary Observatory PBO and the San Andreas Fault Observatory at Depth SAFOD The committee was charged with answered four specific questions Is the scientific rationale for EarthScope sound and are the scientific questions to be addressed of significant importance Is there any additional component that should be added to the EarthScope initiative to ensure that it will achieve its objective of a vastly increased understanding of the structure dynamics and evolution of the continental crust of North America Are the implementation and management plans for the three elements of EarthScope reviewed here appropriate to achieve their objectives Have the appropriate partnerships required to maximize the scientific outcomes from EarthScope been identified in the planning documents Review of EarthScope Integrated Science presents the committee s findings and recommendations To reach its conclusions the committee reviewed extensive written material and listened to presentations by members of the EarthScope Working Group and other interested scientists The recommendations encompass science questions management education and outreach and partnerships Overall the committee was impressed by the EarthScope initiative
