Congress. House. Committee on Foreign Affairs. Subcommittee on the Middle East and South Asia, 2007 **Violent Islamist Extremism, 2007** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs, 2009 **The Limits of Westernization** Perin E. Gürel, 2017-05-30 In a 2001 poll Turks ranked the United States highest when asked Which country

is Turkey's best friend in international relations. When the pollsters reversed the question Which country is Turkey's number one enemy in international relations the United States came in second. How did Turkey's citizens come to hold such opposing views simultaneously? In *The Limits of Westernization* Perin E. Grel explains this unique split and its echoes in contemporary U.S.-Turkey relations. Using Turkish and English sources Grel maps the reaction of Turks to the rise of the United States as a world ordering power in the twentieth century. As Turkey transitioned from an empire to a nation state the country's ruling elite projected westernization as a necessary and desirable force but also feared its cultural damage. Turkish stock figures and figures of speech represented America both as a good model for selective westernization and as a dangerous source of degeneration. At the same time U.S. policy makers imagined Turkey from within their own civilization templates first as the main figure of Oriental barbarism i.e. the terrible Turk then during the Cold War as good pupils of modernization theory. As the Cold War transitioned to the War on Terror Turks rebelled against the new U.S. made trope of the moderate Muslim. Local artifacts of westernization folk culture crossed with American cultural exports and alternate projections of modernity became tinder for both Turkish anti-Americanism and resistance to state led modernization projects. *The Limits of Westernization* analyzes the complex local uses of the West to explain how the United States could become both the best and the worst in the Turkish political imagination. Grel traces how ideas about westernization and America have influenced national history writing and policy making as well as everyday affects and identities. Foregrounding shifting tropes about and from Turkey a regional power that continues to dominate American visions for the modernization of the Middle East Grel also illuminates the transnational development of powerful political tropes from the Terrible Turk to the Islamic Terrorist.
