1 2 Chinese Migrants and Africa's Development Doctor Ben Lampert, Doctor May Tan-Mullins, Daphne Chang, Giles Mohan, 2014-06-12 China's recent stepping up of relations with Africa is one of the most significant developments on the African continent for decades For some it promises an end to Africa's dependent aid relationships as the Chinese bring expertise technology and a stronger business focus But for others it is no more than a new form of imperialism This book is the first to systematically study the motivations relationships and impact of this migration It focuses not just on the Chinese migrants but also on the perceptions of and linkages to their African hosts By studying this everyday interaction we get a much richer picture of whether this is South South cooperation as political leaders would have us believe or a more complex relationship that can both compromise and encourage African development

[Handbook on Hate Crime](#) Nathan Hall, Abbee Corb, Paul Giannasi, John Grieve, 2014-07-25 This edited collection brings

together many of the world's leading experts both academic and practitioner in a single volume handbook that examines key

international issues in the field of hate crime Collectively it examines a range of pertinent areas with the ultimate aim of providing a detailed picture of the hate crime problem in different parts of the world The book is divided into four parts An examination covering theories and concepts of issues relating to definitions of hate crime the individual and community impacts of hate crime the controversies of hate crime legislation and theoretical approaches to understanding offending An exploration of the international geography of hate in which each chapter examines a range of hate crime issues in different parts of the world including the UK wider Europe North America Australia and New Zealand Reflections on a number of different perspectives across a range of key issues in hate crime examining areas including particular issues affecting different victim groups the increasingly important influence of the Internet and hate crimes in sport A discussion of a range of international efforts being utilised to combat hate and hate crime Offering a strong international focus and comprehensive coverage of a wide range of hate crime issues this book is an important contribution to hate crime studies and will be essential reading for academics students and practitioners interested in this field      Territorial Cohesion in Rural Europe Andrew Copus, Philomena de Lima, 2014-08-13 This book reflects on how the economies social characteristics ways of life and global relationships of rural areas of Europe have changed in recent years This reveals a need to refresh the concepts we use to understand measure and describe rural communities and their development potential This book argues that Europe has outgrown many of the stereotypes usually associated with it with substantial implications for European Rural Policy Rural structural change and its evolving geography are portrayed through regional typologies and the concept of the New Rural Economy Demographic change migration business networks and agricultural restructuring are each explored in greater detail Implications for equality and social exclusion and recent developments in the field of governance are also considered Despite being a subject of active debate interventions in the fields of rural and regional development have failed to adapt to changing realities and have become increasingly polarized This book argues that rural regional policy needs to evolve in order to address the current complex reality partially reformulating territorial or place based approaches and the New Rural Paradigm following a set of principles termed Rural Cohesion Policy      *The Ecosystem of Exile Politics* Susan Banki, 2024-11-15 The Ecosystem of Exile Politics relays the events in Bhutan that led to the exodus of one sixth of the population and then recounts the activism by Bhutan's refugee diaspora that followed in response Susan Banki asserts that activism functions like a physical ecosystem in which hubs of activism in different locations interact to pressure the home country For Bhutan's refugee mobilizers physical proximity offers advantages in Nepal and India where organizing protests lobbying and collecting information about government abuse in Bhutan is aided by being close to the homeland But in an ecosystem of exile politics proximity is both a boon and a bane Sites proximate to Bhutan can be spaces of risk and disempowerment and refugee activists rarely secure legal political and social protection While distant diasporas in the Global North may not be in precarious situations they cannot tap into the advantages of proximity In examining these phenomena

The Ecosystem of Exile Politics adds to theoretical understandings of exile politics and to empirical research on Bhutan and its refugee population

**Is the Planet Full?** Ian Goldin, 2014 What are the impacts of population growth Can our planet support the demands of the ten billion people anticipated to be the world's population by the middle of this century While it is common to hear about the problems of overpopulation might there be unexplored benefits of increasing numbers of people in the world How can we both consider and harness the potential benefits brought by a healthier wealthier and larger population May more people mean more scientists to discover how our world works more inventors and thinkers to help solve the world's problems more skilled people to put these ideas into practice In this book leading academics with a wide range of expertise in demography philosophy biology climate science economics and environmental sustainability explore the contexts costs and benefits of a burgeoning population on our economic social and environmental systems

**The Trickle-Down Delusion** John Seip, Dee Wood Harper, 2016-05-02 From inside the book Since 1980 the economy has been growing and productivity has been growing but trickle down values that we the American people promote pursuant to the Republican Party's conservative ideology have rigged the economy to continuously upwardly redistribute those revenues attributable to our increased productivity yielding a productivity wage disconnect resulting in increased concentration of income and wealth at the top in corporations and among older Americans beneficiaries of income from Social Security pensions and investments and continuing income due to delaying retirement and the lowest percentage of GDP attributable to wages and highest attributable to profits since World War II But trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law The result has been that the trickle down policies promoted by the Republican Party are undermining our economy democracy institutions and health For further discussion contact author at johnjseip@gmail.com

*Transit States* Abdulhadi Khalaf, Omar AlShehabi, Adam Hanieh, 2014-11-20 There are vast swathes of people in economic migration across the Gulf states today In total Saudi Arabia Kuwait Bahrain United Arab Emirates Oman and Qatar form the largest destination for labour migration in the global South This book studies the impact of this mass migration and its effect on citizenship and workers rights Transit States considers how the transitory labour power these workers provide creates an extraordinary development boom that impacts neighbouring countries The majority of the working population is therefore composed of migrant workers with no citizenship rights The Gulf takes a central place in growing debates around migration and labour in the global economy Transit States confronts the precarious working conditions of migrants in an accessible yet in depth manner

*Commonplace Diversity: Social Relations in a Super-Diverse Context* Susanne Wessendorf, 2014-11-03 Drawing on in depth ethnographic fieldwork Wessendorf explores life in a super diverse urban neighbourhood The book presents a vivid account of the daily doings and social relations among the residents and how they pragmatically negotiate difference in their everyday lives

**Ideology and Meaning-Making under the Putin Regime** Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological

characteristics of the current Russian government as well as what is happening inside the mind of Vladimir Putin Refusing pundits clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs *Ideology and Meaning Making under the Putin Regime* offers a critical genealogy of ideology in Russia today Marlene Laruelle provides an innovative multi method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies *Ideology and Meaning Making under the Putin Regime* reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions By placing the current Russian regime into a broader context of different strains of strategic culture ideological interest groups and intellectual history this book gives readers key insights into how the Russo Ukrainian War became possible and the role ideology played in enabling it Youth Transitions, International Student Mobility and Spatial Reflexivity D. Cairns, 2014-05-19 Drawing on comparative country case studies this book explores student mobility in Europe incorporating original theoretical perspectives to explain how mobility happens and new empirical evidence to illustrate how students become mobile within their present educational and future working lives **The Urban Condition** Brendan Gleeson, 2014-05-23 This book will speak to the new human epoch the Urban Age A majority of humanity now lives for the first time in cities The city the highest invention of the modern age is now the human heartland And yet the same process that brought us the city and its wonders modernisation has also thrown up challenges and threats especially climate change resource depletion social division and economic insecurity This book considers how these threats are encountered and countered in the urban age focusing on the issue of human knowledge and self awareness just as Hannah Arendt's influential *The Human Condition* did half a century ago *The Human Condition* is now *The Urban Condition* And it is this condition that will define human prospects in an age of default and risk Gleeson expertly explores the concept through three main themes The first is an exploration of what defines the current human condition especially the expanding cities that are at the heart of an over consumptive world economic order The second exposes and reviews the reawakening of forms of knowledge naturalism that are likely to worsen not improve our comprehension of the crisis The new science of urbanism in popular new literature exemplifies this dangerous trend The third and last part of the book considers prospects for a new urban and therefore human dispensation *The Good City* We must first journey in our urban vessels through troubled times But can we now start to plot the way to new shores to a safer more resilient city that provides for human flourishing *The Urban Condition* attempts this ideal conceiving a new urbanism based on the old idea of self limitation *The Urban Condition* is an original timely book that reconsiders and redeploys Arendt's famous notion of *The Human Condition* in an age of cities and risk It brings together several important strands of human consideration urbanisation climate threat resource depletion economic default and critical knowledge and weaves them into a new analysis of the times It also looks to a future that is nearly with us of changed climate resource

scarcity and economic stress The book journeys into these troubled times proposing the idea of Lifeboat Cities as a way of thinking about the human journey to come
