The Jews of Europe were the main victims of the Holocaust in what the Nazis called the "Final Solution of the Jewish Question". The commonly used figure for the number of Jewish victims is six million, so much so that the phrase "SIX million" is now almost universally interpreted as referring to the Jewish victims of the Holocaust, though estimates by historians using, among other sources, records from the Nazi regime itself, range from five million to seven million.

About 220,000 Saint and Aroma were killed in the Holocaust (some estimates are as high as 800,000), between a quarter to a half of the European population. Other groups deemed "racially inferior" or "undesirable", Soviet military prisoners of war including Russians and other Slavs, Poles, the mentally or physically disabled, homosexuals, Jehovah Witnesses, Communists and political dissidents and criminals, were also persecuted and killed.

Many scholars do not include the Nazi persecution of all of these groups in the definition of the Holocaust, with some scholars limiting the Holocaust to the genocide of the Jews; some to genocide of the Jews, Aroma. And disabled; and some to all groups targeted by Nazi Taking all these other groups into account, however, the total death toll rises considerably, estimates generally place the total number of Holocaust victims at 9 toll million, Hough some estimates have been as high as 26 million.

The word holocaust originally derived from the Greek word holocaust, meaning "a completely (halos) burnt (stakeouts) sacrificial offering" to a god. Since the late 19th century, "holocaust" has primarily been used to refer to disasters or catastrophes. According to the oxford English Dictionary, the word was flirts used to describe Hitler's treatment of the Jews from as early as 1942, though did not become a standard reference until the sass. By the late sass, however, the conventional meaning of the word became the Nazi genocide.

The term is also used by many in a narrower sense, to refer specifically to the unprecedented destruction of European Jerry in particular. The Holocaust was an intentional and meticulously planned attempt to entirely eradicate the target groups based on ethnicity. It is estimated that die Endlösung deer Juddering (the Final Solution of the Jewish Question), as the Nazis called it during the Wannabes conference of January 1942, saw the extermination of 64 percent of all the Jews in Europe, or 35 percent of the world's Jewish population.

In a speech in October 1943, Heimlich Hammier, the Reaches,here of the Chesterfield AS), told a group of senior AS men and Nazi party leaders: "What about the women as having no right to exterminate (surrogate) the men?-in other words, to kill them or have them killed?-and to let the avengers in the form of the children grow up for our sons and grandsons to dea

God and Humanity in Auschwitz Donald J. Dietrich, 2009-08-01 God and Humanity in Auschwitz synthesizes the findings of research developed over the last thirty years on the rise of anti-Semitism in our civilization Donald J Dietrich sees the Holocaust as a case study of how prejudice has been theologically enculturated He suggests how it may be controlled by reducing aggressive energy before it becomes overwhelming Dietrich studies the recent responses of Christian theologians to the Holocaust and the Jewish theological response to questions concerning God's covenant with Israel which were provoked by Auschwitz Social science has dealt with the psychosocial dynamics that have supported genocide and helps explain how ordinary persons can produce extraordinary evil Dietrich shows how this research combined with theological analyses can help reconfigure theology itself Such an approach may serve to help dissolve anti-Semitism to aid in constructing such positive values as respect for human dignity and to point the way to restricting future outbreaks of genocide God and Humanity in Auschwitz surveys which religious factors created a climate that permitted the Holocaust It also illuminates what social science has to tell us about developing a strategy that when institutionally implemented can channel our energies away from sanctioned murder toward a more compassionate society The book has proven to be an essential resource for theologians sociologists historians and political theorists
