Installation Manual

Introduction

The DCT6 is a wireless magnetic door contact that is discreetly hidden within the frame of a door or window.

Installation

Transmitter: Drill a 3/4 in. x 2.75 in. depth (16 mm x 70 mm depth) hole in the frame and insert the DCT6 transmitter. Secure the transmitter body A- with two screws or B- with one screw and remove one flange if it interferes with the radial opening or C- press fit installation on narrow frames, see Figure 3, A, B and C.

Magnet: Drill a 3/4 in. x 1.1 in. (19 mm x 28 mm) hole in the frame to be aligned with the transmitter when door/window is closed and insert the magnet with press fit. Make sure it is aligned with the transmitter and that the gap, when closed, is not greater than 0.4 in. / 10 mm.

Silence: A User's Guide, Volume One Maggie Ross, 2014-09-10 Silence is essential for the health and well being of humans and the environment in which they live Yet silence has almost vanished from our lives and our world Of all the books that claim to be about silence this is the only one that addresses silence directly Silence A User s Guide is just what the title says it is a guide to silence which is both a vast interior spaciousness and the condition of our being in the natural world This book exposes the processes by which silence can transfigure our lives what Maggie Ross calls the work of silence it describes how lives steeped in silence can transfigure other lives unawares It shows how the work of silence was once understood to be the foundation of the teaching of Jesus and how this teaching was once an intrinsic part of Western Christianity it describes some of the methods by which the institution suppressed the work of silence and why religious institutions are afraid of silence Above all this book shows that the work of silence gives us a way of being in the world that is more than we can ask for or imagine
