The Unknowable in Literature and Material Culture Margot Irvine,Jeremy Worth,2019-10-08 Literature strives to interpret and explain the unknown and to propose ways in which to engage with it even if at least initially these keys exist only in the realm of the imagination This is one of the many important qualities that draw us to study literature and to marvel at the creative understandings that it offers However many questions call for further exploration how does something unknowable unspeakable become a subject that can be examined and debated How have literary and scientific communities entered into the dialogue and exchange that are crucial to the consolidation of

knowledge By what processes can we come to know and understand that which remains hidden undocumented unspoken poorly understood the memories secrets unknowable and unspeakable truths of public and private human lives Inspired by questions such as these the contributors to this volume reflect on fin de siècle discourses around homosexuality and sexual inversion on Émile Zola as seeker of concealed truths and figure of scandal on the modes and crises of representing human experience in literary and visual forms and on the dialogic space between self and other **Les héritiers de Prométhée.**
