Cookies are the ideal size for small treats If they are baked to perfection they may become dangerously addictive edges that are crisp and crunchy centers that are soft and chewy and so many delicious flavors Why is it always a pleasure to bake a large batch of cookies If you want to involve every member of your family in the process of making something that everyone looks forward to spending time in the kitchen is the ideal family activity Keep in mind the anticipation of awaiting their removal from the oven The small group of kids can take part in everything from mixing the dough to making cookie balls to eagerly waiting for their favorite cookie to be eaten I a novice baker anticipated that the task of developing a novel cookie recipe would be quite challenging Even though I m not a professional baker coming up with ideas was easy for me because I love cookies Several immediately came to mind some of which had a fruit based flavor while others had a completely different shape and were cooked in completely different ways Divergent brainstorming for a cookie recipe even though the process of coming up with ideas led to several inventive and novel recipes I had no idea how to bake a cookie I set out to research fundamental sugar cookie concepts to later modify to begin baking and experimenting with my cookies I figured that after I learned how to bake a basic sugar cookie I could easily modify the recipe to make tasty and unique cookies This was not the case at all My first ideas for unique cookie concepts were based on a fruit based flavor profile or a completely new use for a cookie Due to my extensive engineering training I initially favored a focus on utility in my cookie design A microwaveable cookie a cookie in the shape of an ice cream cone and a cookie spoon were among the designs of marketable product based cookies I have spent the past few summers developing microwave susceptors for food products like Nestle Hot Pockets at a microwave packaging company I wanted to make a microwave based cookie that didn t need an oven because of my technical background in this area Sadly the first experiments with this idea resulted in an unpalatable cookie I went back

to my original fruit based ideas after spotting a pattern in the cookie quality that correlated with a change in the cookie method
