Resources in Education ,1997-04 **Research in Education** ,1971 **Sesotho Language** David Ambrose,2006

English a Changing Medium for Education Constant Leung,Brian V. Street,2012-07-25 In this volume a range of authors from different international contexts argue that the notion of communicative competence in English hitherto largely referenced to metropolitan native speaker norms has to be expanded to take account of diverse contexts of use for a variety of purposes It also discusses the popular belief that language and literacy should simply be regarded as a technical skill which confers universal benefits and that it should be replaced with a social practice view that recognises situated variations and diversity This volume we believe provides a reference point for extended research and practice in these areas that will be of interest to wide range of people engaged in language and literacy education **World Yearbook of Education 1997**

Jagdish Gundara,2012-12-06 This volume in the yearbook series examines the variety of educational responses to differing forms of diversity within states The growth of nationalism and regionalism in many parts of the world is considered alongside the emergence of such international structures as the European Community **Focus on First Year Success** Brenda Leibowitz,Antoinette Van der Merwe,Susan Van Schalkwyk,2009-11-01 The importance of the first year experience is now well recognised This collection of papers makes a fascinating and important contribution to our understanding of students transition to higher education This is a scholarly engaging and illuminating text that is relevant not only in the context of South Africa but for anyone interested in student learning in the first year of university education David Gosling Plymouth University

African Languages in Classrooms and Academia: Intellectualisation and Empowerment through Formal Education Xolisa Tshongolo,2024-12-02 To date there have been few comprehensive books published which deal specifically with the role of African languages in academia and formal education Motinyane Mletshe and Tshongolo as editors have produced a book that fills this gap In this timely collection of 21 chapters written in African languages and English the contributors offer a critique of both language practice in the classroom as well as language planning policy creation and implementation challenges A timely and innovative contribution in the area of language in education teaching pedagogy as well as multilingualism *Annual Report* Lesotho. Ministry of Education,1974 *Teacher Education in Sub-Saharan Africa* Rosarii Griffin,2012-05-14 In the drive to achieve universal primary education as one of the Millennium Development Goals there is an increasing recognition of the urgency of focusing on teacher education to both meet the demand for more than one million qualified teachers required to achieve this goal within sub Saharan Africa as well as to combat the sometimes poor quality educational experience reported in the school Currently approximately only one third of teachers are qualified to teach This dearth in qualified teachers also means that secondary and tertiary education need to be improved upon to provide an educated cohort of graduates This in turn will ensure that the quality of teacher trained and retained within the profession is of a sufficiently high standard to ensure sustainable progress This volume focuses on the various aspects of

teacher education which need to be addressed in order for the wider Millennium Goals to be achieved but more importantly so that each African child living within sub Saharan Africa will have the right to a quality education ensuring they too experience their right and entitlement as children to reach their full potential often taken for granted in Western countries giving African children the necessary tools to build a better future for themselves Of particular interest to the education researcher and policy maker this volume s contributors look at the various issues and challenges around the teacher profession particularly in relation to resources and practices within sub Saharan Africa The contributors examine the issue of building research capacity for educational research within teacher education Colleges and explore the concept of education for sustainable development with the view to improving the development of quality teacher education within the global South In this volume research reports are presented highlighting the various challenges within the structure and provision of teacher education within certain national contexts including assessment and curricula issues which need to be addressed This volume goes from the global to the local and examines teacher educator teaching learning and reflective practice issues within different contexts as well as exploring alternative pre service experiences for western teachers who wish to work within the sub Saharan context as well as some teacher educator exchange programmes between the South and North Case countries explored include Lesotho South Africa Mozambique Uganda Kenya Tanzania and Madagascar to mention but a few Of particular value to the education researcher and policy maker this book provides a timely resource focusing on an area of neglect highlighting the central role of the teacher and teacher education towards sustainable development within the sub Saharan African context

The Mountain School Greg Alder,2013 The Kingdom of Lesotho is a mountainous enclave in southern Africa and like mountain zones throughout the world it is isolated steeped in tradition and home to few outsiders The people known as Basotho are respected in the area as the only tribe never to be defeated by European colonizers Greg Alder arrives in Tsoeneng in 2003 as the village s first foreign resident since 1966 Back then the Canadian priest who had been living there was robbed and murdered in his quarters Set up as a Peace Corps teacher at the village s secondary school Alder finds himself incompetent in so many unexpected ways How do you keep warm in this place where it snows but there is no electricity How do you feed yourself where there are no grocery stores let alone restaurants Tsoeneng is a world apart from his home in America but Alder persists in adapting He learns to grow food he learns to speak the strange local language and he makes enough friends such that he is eventually invited to participate in initiation rites Yet even as he seems accepted into the Tsoeneng fold he sees how much of an outsider he will always remain and perhaps want to remain The Mountain School is insightful and candid at times accepting and at times rebellious It is the ultimate tale of the transplant

Knowledge Beyond Colour Lines Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society *Proceedings of the International Conference on Education Research* Reza Hosseini, **Unifying Southern African Languages** A.
