

15 November 1954

Southern California Air Pollution Foundation
704 South Spring Street
Los Angeles 14, California

Attention: Dr. Nicholas Rinetti

Subject: Proposal for "Early Investigations of
Carbon Isotopes"

Gentlemen:

We enclose herewith, in final form, five (5) copies of subject proposal as prepared by Dr. Samuel Epstein, Associate Professor of Geochemistry, under date of 11 November 1954. The proposal contemplates research for an initial period of one year at a total estimated cost of \$13,814.

You will note, on page 5 under the heading Facilities, that our use of the mass spectrometer and other facilities necessary for this program is contingent upon authorization by the Atomic Energy Commission inasmuch as title to this instrument and related laboratory facilities vests in the AEC. However, this office has discussed the question by telephone with AEC/Washington and, although firm approval could not be given at that time, it was indicated that the AEC viewed our request as reasonable and would give cooperative consideration to the matter. It was necessary that we submit a formal, written request to AEC for the required authorization, as has been done, and if, following review by AEC's legal branch, no statutory regulation in the new Atomic Energy Act is found to preclude such authorization, we anticipate receiving an affirmative response from the Commission. As soon as a reply is received, this office will communicate immediately with you. That is expected to be no later than 20 November.

For your further guidance in the event our proposal is approved for support by the Foundation, we enclose a sample copy of the agreement form used by the Institute as a standard in completing arrangements with non-Government sponsors. Should you wish, in lieu of such an agreement, to make your support merely a grant award by letter, that will be equally acceptable to us.

Papers On Air Pollution

mar 15 2004 summary this chapter contains sections titled introduction historical development of membranes types of membranes membrane processes references

an introduction to membrane science and technology - Apr 07 2022

this book is a collection of papers derived from a conference on membranes held at the columbus laboratories of battelle memorial institute in columbus ohio on october 20 and

frontiers in membrane science and technology - Feb 17 2023

apr 13 2022 the goal of the journal frontiers in membrane science and technology in the section of membrane formation and structure is to publish high quality original research and

membrane technology wikipedia - Jun 09 2022

membrane technology is a physical technique that involves filtration of wastewater and able to remove diverse size ranges micro to nano of contaminants via specialized membranes with

frontiers in membrane science and technology - Jul 22 2023

mar 15 2013 the encyclopedia of membrane science and technology considers the fast growing interest in synthetic

membranes and their many applications including drinking water

membrane technology journal sciencedirect com by elsevier - Oct 01 2021

oct 25 2023 conduct research on the science and technology of water treatment wastewater treatment desalination and membrane processes lead the development of advanced water and wastewater treatment and desalination methods powered and driven by renewable energy solar wind etc

mst membrane science and technology mst - Aug 23 2023

membrane science and technology is interdisciplinary and at the interface of materials science and engineering it encompasses theory selective molecular transport materials science
