Many teachers have pushed aside independent reading in the time crunch to teach all the content and skills in the curriculum or because of pressure to stay true to a traditional literary canon. Instead of looking at it as either/or, Just Read It shows teachers how to make independent reading yes and Dr. Amato's Read and WRAP write-reflect-analyze-participate framework helps teachers cultivate meaningful learning experiences with daily dedication of independent reading time followed by writing, reflection, conversation, and community building lessons and activities. With thoughtful student-centered structures and strategies to sustain independent reading success, this book provides detailed insights on transforming the principles of access, choice, time, and community into actions. Shows how to support student interests and varied reading levels. Offers ready-to-go activities to initiate Read and WRAP routines at the start of the school year, keep momentum going, and finish the year strong to ensure continued literacy growth. Demonstrates how to leverage student feedback to fine-tune the Read and WRAP routines. Discusses various options for incorporating independent and whole-class novels into the curriculum. Offers a game plan to level up IR, including how to launch and lead a Project LIT chapter. We live in a time when choosing what we read is critically important, and this book offers all the tools teachers need to guide students along the path to true literacy. Just Read It is perfect for anyone who believes in the power of books to change students' lives and nurture a life-long love for reading. *At the Cliff's Edge* Matthew Militello, 2004 **Journal for Research in Mathematics Education**, 2015
